It was the Lotus 78 that laid the ground for the Lotus 79, and ultimately changed racing as we know it by placing a huge emphasis on the aerodynamic side of the design. A crucial book for any Lotus enthusiast, but even more important to the F1 fan for its technological and historical review of two of the most ground breaking cars the sport has ever seen.

Lotus 78 and 79: The Ground Effect Cars The Lotus 78 was the car that started the ground effect revolution in Formula 1. By means of ducts and flexible skirts, the air that passed under the car was used, literally, to suck it to the ground. It created a sensation and revived the British team's fortunes.
