Of increasing interest to astrologers, Lilith is the name given to four astronomical points - an asteroid, a star, a dark "ghost" moon, and the better-known Black Moon. All four Liliths are discussed and differentiated with the aid of numerous case histories and fascinating insights into the lives of public figures. A section of suggested interpretations of Lilith's influence through the signs is in-

cluded.

The most comprehensive book to date on the use and understanding of the Lunar Nodes in Vedic astrology. The author is a widely known and immensely respected teacher with students all over the world. She has used her experience of working with the nodal axis to show how, by sign and placement, they affect every level of our spiritual existence. Students of astrology, yoga and ayurveda will find this book

particularly helpful.

The scientific, historic, and popular basis behind the ancient art of astrology is explored in this comprehensive reference. The guide also includes a table of astrological glyphs and abbreviations, a section on casting a chart, and a chapter that explains and interprets every planet in every house and sign.

Astrologer Gillian Helfgott unlocks the power of the 0, traditionally ignored by nu-

merologists, and explores its impact when positioned with the nine numbers of the traditional Chinese Lo Shu grid. With simple instructions and many fascinating case histories, including that of her husband David Helfgott, she gives us a feel for the numbers, and how we can use them in a practical and effective way to understand our lives. Calculate your turtle, and learn how the numbers and cycles affect you, and see why a Big 0 Birthday is more than just the turning of another decade! Whilst medical astrology cannot take the place of advice from orthodox professionals, it can often throw light on prevailing problems.

Best selling author of *The Crystal Bible*, Judy Hall, shares her experience of over 35 years regressing clients. She shows how decisions made with soul groups in the space between lives - the interlife - explain the way our lives unfold and how we can renegotiate out of date agreements.

Bringing together some of the most recognized and influential researchers and scientists in various space-related disciplines, *Lunar Settlements* addresses the many issues that surround the permanent human return to the Moon. Numerous internation-

al contributors offer their insights into how certain technological, physiological, and psychological challenges must be met to make permanent lunar settlements possible. The book first looks to the past, covering the Apollo and Saturn legacies. In addition, former astronaut and U.S. Senator Harrison H. Schmitt discusses how to maintain deep space exploration and settlement. The book then discusses economic aspects, such as funding for lunar commerce, managing human resources, and commercial transportation logistics. After examining how cultural elements will fit into habitat design, the text explores the physiological, psychological, and ethical impact of living on a lunar settlement. It also describes the planning/technical requirements of lunar habitation, the design of both manned and modular lunar bases, and the protection of lunar habitats against meteoroids. Focusing on lunar soil mechanics, the book concludes with discussions on lunar concrete, terraforming, and using greenhouses for agricultural purposes. Drawing from the lunar experiences of the six Apollo landing missions to the many American and Soviet robotic missions to current space activities and re-

search, this volume summarizes the problems, prospects, and practicality of enduring lunar settlements. It reflects the key disciplines, including engineering, physics, architecture, psychology, biology, and anthropology, that will play significant roles in establishing these settlements.

Medical astrology is a fascinating subject, yet undoubtedly a rather challenging one. In this work however, the author attempts to ease the path towards greater understanding of traditional astrological principles regarding health, as well as introducing some new experiential ideas. These have been developed through her long practice in this field. What can sometimes be helpful in studying a chart is to understand the psychological underlay to medical conditions inherent in the cosmic pattern. The many charts included in this work from the author's own casebook as well as the charts of some public figures both current and historical, suggest guidelines for interpretation. This book is recommended for anyone who is interested in exploring medical astrology in greater depth, and perhaps including some aspects of it in their own astrological work.

Grief doesn't discriminate. It will touch all

of us at some point; an uninvited guest that can't be shown the door, that takes over our lives and changes us forever. In this gut-wrenchingly beautiful book, Darrelyn Gunzburg shows us how knowing the shape of grief and its consequences over time give edges and boundaries to this dark pathway, revealing that through the prickly branches and the mist, life awaits us at the edge of the forest, dressed in cloths of gold and sustained with love and warmth. Helping ourselves first means we gain the wisdom that grief gives us to help others on their unique journey to encounter a changed future with focus, determination, and understanding when grief comes to call. To allow someone in grief to give voice to their experiences is not just being kind. It is saving their life.

The mere mention of the word 'teenager' can strike fear into the heart of the bravest soul, and yet there are some truly heroic individuals who make it a life-long mission to teach them. Alex Trenoweth is one such teacher. She also happens to be an astrologer. Her official subjects are Religious Studies, History and English, but from reading 'Growing Pains' you will quick-

ly find that her true passion is the actual students themselves. Using the cycles of Jupiter and Saturn she untangles the confusing conundrum of why groups of students are so different from each other year on year, and sometimes even within year groups. How is an already over-worked teacher supposed to cope with this ongoing challenge? Alex Trenoweth has the answer.

Many people are looking for their soulmate and expect to be blissfully happy when they find one. But, sadly, they seem doomed to disappointment. Soulmates are both a powerful fact and one of the biggest illusions of all time.

The Shodasa Vargas or sixteen divisional charts are an essential technique that is studied in vedic astrology in order to understand the true nature of an individual. Each varga focuses on a different area of life, and together they represent the complete picture, reflecting human consciousness from reality to the subconscious. Komilla Sutton unravels the sixteen vargas and their secrets through the in-depth study of case histories that include Sri Ramana Maharshi, Bill Clinton, Prince William, Bill Gates, Sri Aurobindo, Oprah Win-

frey, Julia Roberts, George Clooney, Michael Jackson and many more. She explains the navamsha techniques of relationship compatibility, karakamsha, the atmakaraka in navamsha, how to analyse dasha and transits with vargas, plus vimshopaka, visheshika amsha and finally, appropriate remedies. This book is perfect for all students of vedic astrology, from beginner level to advanced.

Despite incredible and previously undreamed-of advances in modern medicine, for many women the issue of infertility remains a heart-breaking reality. Using a combination of traditional and modern astrological techniques, the author has delved deeply into the charts of hundreds of infertile women, and in many cases has unravelled what might be at the root of the problem. Sometimes it's a matter of location or timing, or it could be psychological issues in the relationship that are causing the block; whatever the reason, the author works closely with the couple - and often the medical profession - to produce results that are frequently positive where there has been no hope before. Although this is an advanced textbook for astrologers, the human element of the case

histories is nothing short of inspiring, and from that perspective can be enjoyed by readers with no knowledge of astrology.

The first in-depth analysis of how an individual's natal horoscope reveals the unique challenges and opportunities of midlife. Between the ages of thirty-seven and forty-one, something mysterious takes place within the psyche. Jung called this phase our "unlived life," assuming rightly that midlife did not inaugurate a time of rapid decay, loss of libido, and inevitable death—but rather ushered in a period in which one might review one's life and build upon a strong foundation toward the next phase of adulthood. Acclaimed astrologer Erin Sullivan takes us through the vast changes that astrology reveals as we reach middle age. It is a moment in life that is characterized by the planet Uranus, one filled with opportunities to both rethink the past and move forward toward the future, "witnessing" our lives in the way Uranus connotes. There exist no maps of the terrain—except the natal horoscope. Horary astrology is a fascinating and exacting technique, and here is the perfect book to hone your skills. Author Petros

Eleftheriadis presents over fifty valid charts taken from his client files which demonstrate, in clear steps, how to reach an answer. He stresses the importance of starting with the correct question; for instance, he doesn't accept 'Should I?' questions, saying 'Astrology charts cannot possibly show something that will NEVER materialize, something that will never become reality, so they cannot show how your life would be, had you made another decision.' So rather than asking whether you will win the lottery if you buy a ticket, the correct action would be to buy the ticket then ask if you will win. Ideal for students and professionals with some knowledge of horary astrology.

A beautiful book which for the first time explores the relationship between the cycles of Venus and Mars and their impact on our lives. Using many case histories the author shows how, although synastry is important, possibly of greater importance is the aspect between the two planets within their cycles because that can dictate the timing of key moments in a relationship. She shows how the degree of the original conjunction between the two planets ('the degree of passion'), based on the time of

birth can indicate the kind of the people we are attracted to and the course a romance can follow. A really absorbing book which will prompt hours of research

A sensitive and spiritual look at the way the energy of the nodal axis, Rahu and Ketu affects your life and how you can use it for better self-understanding.

Davis shows how locations of significance and global hotspots can be identified astrologically, bringing the influence of space (where something may happen) into the usual astrological focus on time (when something may happen). This is a critical enlargement of astrological perspective for today's needs, were an understanding of influences around the globe is critical for our very well being

The author presents meditations on the spiritual lessons of the planets and zodiacal signs, and, with the plentiful use of case histories, describes the technique of symbol amplification, which enables us to unfold the deepest meanings of chart symbols. The book ends with a discussion of astrology as a spiritual practice.

Do you know the Bowl from the Basket shape in a natal chart? Did you realise just

how much information you can gain from examining the actual pattern of the planets in the chart? No matter how knowledgeable we are about astrology, natal chart analysis can still present a challenge - however, understanding chart shapes could make all the difference. In this fascinating study, Wanda Sellar pinpoints an effective route into the astrological labyrinth using a concept which was pioneered by Marc Edmund Jones and then followed by Robert Jansky in the last century. Each chart shape has its own central theme: a Locomotive shape has its starting point with the leading planet which may be in any house or sign, a See-Saw shape begins with the core opposition, a Wedge with the confining trine. Not all charts fit neatly into one of the idealised patterns, and those that take a little coaxing are still a revelation in interpretation. Sometimes it is the planet that stands outside the idealised shape that reveals the core of the personality. This treasure trove includes a multitude of worked case histories, including Arnold Schwarzenegger, Mata Hari, George Blake, Bobby Fischer, Harrison Ford and Agatha Christie. This fascinating and accessible book is suitable for all levels.
