Wilkie Collins was an English novelist, playwright, and short story writer. The Yellow Mask is a complete mystery novel. The secret of Wilkie Collins's success is the combination of various genres: the writer-master of intrigue and fascinating plot skillfully combines melodrama, detective and a manners novel in his books, generously flavoring them elements of the Gothic novel. Sister Rose is set against the background of the French Revolution and concerns Louis Trudaine; his sister, Rose, who contracts an unhappy marriage to the aristocratic Charles Danville; and Danville's land-steward, Lomaque, who is indebted to Trudaine's father. Trudaine fulfils a deathbed promise to his mother to protect Rose and arouses Danville's animosity.

A sweet Regency romance for all ages. Lady Daphne should dream of handsome lords coming to court, but she has little interest in her upcoming presentation. Her sister is slated to save the family coffers by marrying well, leaving Daphne to pursue other interests. The Earl of Scarborough has spoiled his younger daughter by retaining her dance instructor long past when she's mastered all the formal dances. Little does he know this instructor has been teaching her dance only seen on the stage. His excitement in finding talent blinds him to the false dreams growing in her head of her own debut not in society's ballrooms but in a theater. Baron Jasper Pendleton grew up in a house with divided parents who could barely suffer each other. His father's passing left him in charge of decent, if neglected, properties, and he's gained a reputation for how he brought them back to prosperity, but the prize for such standing is the interest of eager mothers and their daughters who, no matter how pretty, will become as waspish as his dear mother did in her husband's presence. Love is something denied those of his bloodline, so he puts the securing of their family in his mother's hands, his time better spent working or playing hard. When a masked dancer's mystery and passion inflames his frozen heart, can Daphne and Jasper find love when convention sets them on opposing sides?

#1 NEW YORK TIMES BESTSELLER • From the author of Small Great Things and The Book of Two Ways comes “a powerfully evocative story of resilience and the triumph of the human spirit” (Taylor Jenkins Reid, author of The Seven Husbands of Evelyn Hugo and Daisy Jones & The Six) Rights sold to Netflix for adaptation as a feature film • Named one of the best books of the year by She Reads Diana O'Toole is perfectly on track. She will be married by thirty, done having kids by thirty-five, and move out to the New York City suburbs, all while climbing the professional ladder in the cutthroat art auction world. She's an associate specialist at Sotheby's

now, but her boss has hinted at a promotion if she can close a deal with a high-profile client. She's not engaged just yet, but she knows her boyfriend, Finn, a surgical resident, is about to propose on their romantic getaway to the Galápagos—days before her thirtieth birthday. Right on time. But then a virus that felt worlds away has appeared in the city, and on the eve of their departure, Finn breaks the news: It's all hands on deck at the hospital. He has to stay behind. You should still go, he assures her, since it would be a shame for all of their nonrefundable trip to go to waste. And so, reluctantly, she goes. Almost immediately, Diana's dream vacation goes awry. Her luggage is lost, the Wi-Fi is nearly nonexistent, and the hotel they'd booked is shut down due to the pandemic. In fact, the whole island is now under quarantine, and she is stranded until the borders reopen. Completely isolated, she must venture beyond her comfort zone. Slowly, she carves out a connection with a local family when a teenager with a secret opens up to Diana, despite her father's suspicion of outsiders. In the Galápagos Islands, where Darwin's theory of evolution by natural selection was formed, Diana finds herself examining her relationships, her choices, and herself—and wondering if when she goes home, she too will have evolved into someone completely different.

Sophie describes her relationships with a series of boys as she searches for Mr. Right.

Six years before she wrote *Little Women*, Louisa May Alcott, in financial straits, entered "Pauline's Passion and Punishment," a novelette, in a newspaper contest. Not only did it win the \$100 prize, but, published anonymously, it marked the first in the series of "blood & thunder tales" that would be her livelihood for years. In *Behind a Mask*, editor Madeleine Stern introduces four Alcott thrillers: "Pauline's Passion and Punishment," "The Mysterious Key," "The Abbot's Ghost," and the title story, "Behind a Mask." First published in one volume in 1975, they are regarded as Alcott's finest work in this genre.

Finalist for the 2020 Kirkus Prize for Nonfiction | One of Time Magazine's 100 Must-Read Books of 2020 | Longlisted for the 2020 Porchlight Business Book Awards "An entertaining quest to trace the origins and implications of the names of the roads on which we reside." —Sarah Vowell, *The New York Times Book Review* When most people think about street addresses, if they think of them at all, it is in their capacity to ensure that the postman can deliver mail or a traveler won't get lost. But street

addresses were not invented to help you find your way; they were created to find you. In many parts of the world, your address can reveal your race and class. In this wide-ranging and remarkable book, *Deirdre Mask* looks at the fate of streets named after Martin Luther King Jr., the wayfinding means of ancient Romans, and how Nazis haunt the streets of modern Germany. The flipside of having an address is not having one, and we also see what that means for millions of people today, including those who live in the slums of Kolkata and on the streets of London. Filled with fascinating people and histories, *The Address Book* illuminates the complex and sometimes hidden stories behind street names and their power to name, to hide, to decide who counts, who doesn't—and why.

The thesis of *A Gorgon's mask: The Mother* in Thomas Mann's *Fiction* depends upon three psychoanalytic concepts: Freud's early work on the relationship between the infant and its mother and on the psychology of artistic creation, Annie Reich's analysis of the grotesque-comic sublimation, and Edmund Bergler's analysis of writer's block. Mann's crisis of sexual anxiety in late adolescence is presented as the defining moment for his entire artistic life. In the throes of that crisis he included a sketch of a female as Gorgon in a book that would not escape his mother's notice. But to defend himself from being overcome by the Gorgon-mother's stare he employed the grotesque-comic sublimation, hiding the mother figure behind fictional characters physically attractive but psychologically repellent, all the while couching his fiction in an ironic tone that evoked humor, however lacking in humor the subtext might be. In this manner he could deny to himself that the mother figure always lurked in his work, and by that denial deny that he was a victim of oral regression. For, as Edmund Bergler argues, the creative writer who acknowledges his oral dependency will inevitably succumb to writer's block. Mann's late work reveals that his defense against the Gorgon is crumbling. In *Doctor Faustus* Mann portrays Adrian Leverkühn as, ultimately, the victim of oral regression; but the fact that Mann was able to compete the novel, despite severe physical illness and psychological distress, demonstrates that he himself was still holding writer's block at bay. In *Confessions of Felix Krull: Confidence Man*, a narrative that he had abandoned forty years before, Mann was finally forced to acknowledge that he was depleted of creative vitality, but not of his capacity for irony, brilliantly couching the victorious return of the repressed in ambiguity. This

study will be of interest to general readers who enjoy Mann's narrative art, to students of Mann's work, especially its psychological and mythological aspects, and to students of the psychology of artistic creativity.

I am especially dedicating this book to my father (rest in peace). They say that all good things will eventually end, well for me, that is not the case. This book is the new beginning of bringing back to life the people and things thought to have come to an end. I decided to name this book "A product of my own environment", because; all of us are just that. Growing up in Chicago IL, my environment naturally put inside of me to never speak on things I knew nothing about, and not to mind the business of others. This was all part of everyday survival.

Set in fourth-century B.C. Greece, *The Mask of Apollo* is narrated by Nikeratos, a tragic actor who takes with him on all his travels a gold mask of Apollo, a relic of the theatre's golden age, which is now past. At first his mascot, the mask gradually becomes his conscience, and he refers to it his gravest decisions, when he finds himself at the centre of a political crisis in which the philosopher Plato is also involved. Much of the action is set in Syracuse, where Plato's friend Dion is trying to persuade the young tyrant Dionysios the Younger to accept the rule of law. Through Nikeratos' eyes, the reader watches as the clash between the two unleashes all the pent-up violence in the city.

Masks are everywhere. What do kids think about that? When Lucy finds out her mom is making her a special mask she's excited. Lucy loves masks! She dives into her toy box full of costumes and opens a world of imagination and make-believe adventure, far beyond the walls of her room. Of course, she doesn't realize that the mask her mom is making is not part of a costume but one that will keep her safe and make her a real-life superhero. This book is not a science lesson about germs and protection. It's a simple fun story that helps make mask-wearing more relatable

and less scary. Parents and educators have found it to be a wonderful tool to start a conversation about germs, viruses, the pandemic, and what families have to do to keep themselves and others safe. For children heading to schools that will require them to wear masks, and for parents, grandparents and teachers looking for stories that give comfort and reassurance to kids about the changes around them, *Lucy's Mask* is a welcome addition to reading time. *Lucy's Mask* was a Finalist in the 2021 Next Generation Indie Book Awards.

Who was the mysterious figure who was held in custody by French authorities for nearly 35 years, with his face constantly cloaked in an identity-concealing iron mask? Though writers ranging from Voltaire to Dumas have advanced their own theories, this exhaustive examination of historical documents comes closest to presenting a viable answer to this centuries-old mystery.

When a woman becomes a mother, her relationships, her professional identity and her sense of self will never be the same again. The presence of children does not simply add to the lives of parents, it transforms those lives completely. The precise nature of this transformation remains one of the best kept secrets of contemporary adult life, shrouded in a conspiracy of silence. For expectant mothers - whether that expectation is imminent or distant - *The Mask of Motherhood* provides a backstage look at the realities of contemporary mothering, from pregnancy and childbirth to the juggling act we all call 'working motherhood'.

A revealing and intimate portrait of family life in a changing world, based on the author's experiences living and working in the Middle East.

This is the eighteenth volume of the ongoing series of papers and submissions to the Oxford Symposium on Food & Cookery, the longest running food history conference in the world.

If I could teach one person anything in my life, I would teach them to love unconditionally. What I mean is that you must learn to look for the good in life. If you lose your mother you must still have unconditional love and learn to move on. If you are hungry you must find happiness in hunger and if you are sick you must find happiness there because I believe that unconditional love heals every ailment that we have. Unconditional love is happy and you will be happy no matter what. With unconditional love you are happy because you accept all things but when you have conditioned love when things happen you are limited. Live

life limitless and without conditions. (Change your mindset and you will be happier. No matter what you will accept all changes in life, good or bad with no limitations). Stop setting limits on yourself, bite the bullets and set unconditional happiness. See your experiences for what they are and don't define someone's past as their future. At twenty you could be a single mother who is a drug addict living on the street and at forty you could be a doctor or a lawyer. Do not define anyone by their past. This is what my book is all about.

At 30 years old, Lewis Howes was outwardly thriving but unfulfilled inside. He was a successful athlete and businessman, achieving goals beyond his wildest dreams, but he felt empty, angry, frustrated, and always chasing something that was never enough. His whole identity had been built on misguided beliefs about what "masculinity" was. Howes began a personal journey to find inner peace and to uncover the many masks that men – young and old – wear. In *The Mask of Masculinity*, Howes exposes the ultimate emptiness of the Material Mask, the man who chases wealth above all things; the cowering vulnerability that hides behind the Joker and Stoic Masks of men who never show real emotion; and the destructiveness of the Invincible and Aggressive Masks worn by men who take insane risks or can never back down from a fight. He teaches men how to break through the walls that hold them back and shows women how they can better understand the men in their lives. It's not easy, but if you want to love, be loved and live a great life, then it's an odyssey of self-discovery that all modern men must make. This book is a must-read for every man – and for every woman who loves a man.

Why do people pass? Fifteen writers reveal their experiences with passing. For some,

"passing" means opportunity, access, or safety. Others don't willingly pass but are "passed" in specific situations by someone else. *We Wear the Mask*, edited by Brando Skyhorse and Lisa Page, is an illuminating and timely anthology that examines the complex reality of passing in America. Skyhorse, a Mexican American, writes about how his mother passed him as an American Indian before he learned who he really is. Page shares how her white mother didn't tell friends about her black ex-husband or that her children were, in fact, biracial. The anthology includes writing from Gabrielle Bellot, who shares the disquieting truths of passing as a woman after coming out as trans, and MG Lord, who, after the murder of her female lover, embraced heterosexuality. Patrick Rosal writes of how he "accidentally" passes as a waiter at the National Book Awards ceremony, and Rafia Zakaria agonizes over her Muslim American identity while traveling through domestic and international airports. Other writers include Trey Ellis, Marc Fitten, Susan Golomb, Margo Jefferson, Achy Obejas, Clarence Page, Sergio Troncoso, Dolen Perkins-Valdez, and Teresa Wiltz.

*The Masque of the Red Death* Edgar Allan Poe - The story is said in the most enthralling manner that it makes it very interesting as well as introspective. Even though it appears to be very literal but the crux of the matter is all about the inevitability of death. The prince thought that with his power and position he could defy the plague that caused death in his kingdom. But eventually even he is not spared because on the figurative level it is not a plague but death itself, that does not spare anyone. Prince Prospero's intentions and preparations did not stand a chance when death decided to take him on.

The Count of Monte Cristo The Three Musketeers The Man in the Iron Mask The Count of Monte Cristo is an adventure novel by Alexandre Dumas, first published in serial form from August 1844 until January 1846. The story takes place in France, Italy, islands in the Mediterranean, and in the Levant during the historical events of 1815-1838. It begins from just before the Hundred Days period and spans through to the reign of Louis-Philippe of France. The historical setting is a fundamental element of the book. It focuses on a man who is wrongfully imprisoned, escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. The Three Musketeers is a novel by Alexandre Dumas, first published in serial form in 1844. Set in the 17th century, it recounts the adventures of a young man named d'Artagnan after he leaves home to travel to Paris, to join the Musketeers of the Guard. D'Artagnan is not one of the musketeers of the title; those are his friends Athos, Porthos and Aramis, inseparable friends who live by the motto "all for one, one for all", a motto which is first put forth by d'Artagnan. The Man in the Iron Mask climactically concludes the epic adventures of the three

Musketeers. Alexandre Dumas (1802-1870) was a French writer whose works have been translated into nearly 100 languages and he is one of the most widely read French authors. His most famous works are The Count of Monte Cristo and The Three Musketeers.
