Published on 10 September 2015 in the UK and on 10 November 2015 in the US, Magicians of the Gods is not in any sense an 'update' of Fingerprints but is a completely new book filled from front to back with completely new evidence, completely new travels to the world's most mysterious archaeological sites, and completely new insights, based on the latest scientific evidence, into the ...

The focus of Magicians of the Gods is Hancock's belief that the end of the Younger Dryas period was caused by a celestial impact. This asteroid strike, or multiple strikes as he believes that it split in the atmosphere, was primarily focused upon the ice shelf at the Canadian/US border and created the scablands that we see there today.
