Leo is an Italian writer in his thirties. Thomas, his German lover, is dead. On a plane to Munich, Thomas's home town, Leo slips into a reverie of their meeting and life in Paris, nights in Thomas's flat in Montmartre and a desperate, drug-induced flight through the forests of northern France that spells the end for Leo and Thomas' languid, erotic life together. Leo travels to find anonymity. Structured in three musical movements, *Separate Rooms* is a story of ideal love, broken by absence and separation. When Thomas was alive, he and Leo had separate rooms in order to preserve the urgency of their passion. Now, Leo faces solitude, the impossible striving of memory to recreate life and the hostility of a prejudiced world. *Separate Rooms*, Tondelli's last book, is a powerful novel of the strength of love and the trauma of death.

Recipient of the Independent Publishers Award for Historical Fiction (Gold Medal), the Foreword Book of the Year Award for Historical Fiction (Bronze Medal), and an honorable mention in the category of General Fiction for the Eric Hoffer Award. Luis de Santángel, chancellor to the court and longtime friend of the lusty King Ferdinand, has had enough of the Spanish Inquisition. As the power of Inquisitor General Tomás de Torquemada grows, so does the brutality of the Spanish church and the suspicion and paranoia it inspires. When a dear friend's demise brings the violence close to home, Santángel is enraged and takes retribution into his own hands. But he is from a family of conversos, and his Jewish heritage makes him an easy target. As Santángel witnesses the horrific persecution of his loved ones, he begins slowly to reconnect with the Jewish faith his family left behind. Feeding his curiosity about his past is his growing love for Judith Migdal, a clever and beautiful Jewish woman navigating the mounting tensions in Granada. While he struggles to decide what his reputation is worth and what he can sacrifice, one man offers him a chance he thought he'd lost...the chance to hope for a better world. Christopher Columbus has plans to discover a route to paradise, and only Luis de Santángel can help him. Within the dramatic story lies a subtle, insightful examination of the crisis of faith at the heart of the Spanish Inquisition. Irresolvable conflict rages within the conversos in *By Fire, By Water*, torn between the religion they left behind and the conversion meant to ensure their safety. In this story of love, God, faith, and torture, fifteenth-century Spain comes to dazzling, engrossing life.

This volume of the "Documentary History of the Jews in Italy" is the ninth of the second series, illustrating the history of the Jews in Sicily based on notarial and court records. It is the sequel to the eight volumes of the first series. Notarial deeds drawn up by public notaries in Palermo and elsewhere and cases brought before the Pretorian Court in Palermo present a kaleidoscopic picture of the private lives of the Jews of Sicily during the last three centuries of their presence on the island. They illustrate the economic, social and religious history of the Jewish minority and the relations with the Christian majority. Much information is provided on trade and commerce, crafts and professions, religious and family life. Some light is thrown also on the internal life of the communities, particularly the larger ones, including organization and institutions, the synagogue, education, customs and traditions. Although the surviving legal deeds present only a fraction of the total drawn up in those years, they are copious and abundant. Over 30,000 documents of this group were selected for publication, most appearing here for the first time. While some documents are discussed at length, the majority are only presented in summary form. The volume is provided with additional bibliography and indexes, while the introduction will appear at the end of the series.

Just when you thought Garth Ennis had gone too far, just when you thought it was safe to walk the streets, just when you thought no one would go near the idea of the world's first superhero prostitute... here comes *The Pro*.

Bacon published this interesting little work in 1609. It contains thirty-one fables

abounding with a union of deep thought and poetic beauty. In most fables he explains the common but erroneous supposition that knowledge and the conformity of the will, knowing and acting, are convertible terms.

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

Reminiscent of Scheherazade and *One Thousand and One Nights*, Gianni Rodari's *Telephone Tales* is many stories within a story. Every night, a traveling father must finish a bedtime story in the time that a single coin will buy. One night, it's a carousel that adults cannot comprehend, but whose operator must be some sort of magician, the next, it's a land filled with butter men who melt in the sunshine. Awarded the Hans Christian Anderson Award in 1970, Gianni Rodari is widely considered to be Italy's most important children's author of the 20th century. Newly re-illustrated by Italian artist Valerio Vidali (*The Forest*), *Telephone Tales* entertains, while questioning and imagining other worlds.

Dark moments seem like sweetness and light to lovers who dance to the beat of a dying heart. Ugly is beauty to them, horror is their laughter, and souls, dark or bright need not apply.

This classic study remains the best single introduction to the Egyptian mythological world. The Egyptians lived apart from the rest of the ancient world, and it is this isolation that makes their ideas so difficult to appreciate and interpret. Egyptian thought was presented in terms of mythology: myth was used to convey insights into the workings of nature and the ultimately indescribable realities of the soul ...

A five-volume translation of the classic sixteenth-century Chinese novel on the domestic life of a corrupt merchant.

The life of a female war photographer killed in action is told by three of her friends in this biographical novel by the author of *Bloody Cow*. Gerda Taro was a German-Jewish war photographer, anti-fascist activist, artist, and innovator who, together with her partner, the Hungarian Endre Friedmann, was one half of the alias Robert Capa, widely considered to be the twentieth century's greatest war and political photographer. She was killed while documenting the Spanish Civil War and tragically became the first female photojournalist to be killed on a battlefield. August 1, 1937, Paris. Taro's twenty-seventh birthday, and her funeral. Friedmann leads the procession. He is devastated, but there

are others, equally bereft, with him: Ruth Cerf, Taro's old friend from Leipzig with whom she fled to Paris; Willy Chardack, ex-lover; Georg Kuritzkes, another lover and a key figure in the International Brigades. They have all known a different Gerda, and one who is at times radically at odds with the heroic anti-fascist figure being mourned by the multitudes . . . Another character in the novel is the era itself, the 1930s, with economic depression, the rise of Nazism, hostility towards refugees in France, the century's ideological warfare, the cultural ferment, and the ascendancy of photography as the age's quintessential art form. Winner of the Strega Prize, *The Girl with the Leica* is a must-read for fans of historical fiction centered on extraordinary women's lives. "A biography, a feminist parable, a declaration of love for photography, and a tableau of the 1930s: *The Girl with the Leica* is all this at once." —*Il Sole 24 Ore* (Italy) "Janeczek creatively and seamlessly spotlights war photographer Gerda Pohorylle." —*Publishers Weekly*

The "Gothic" style was a key trend in Italian cinema of the 1950s and 1960s because of its peculiar, often strikingly original approach to the horror genre. These films portrayed Gothic staples in a stylish and idiosyncratic way, and took a daring approach to the supernatural and to eroticism, with the presence of menacing yet seductive female witches, vampires and ghosts. Thanks to such filmmakers as Mario Bava (*Black Sunday*), Riccardo Freda (*The Horrible Dr. Hichcock*), and Antonio Margheriti (*Castle of Blood*), as well the iconic presence of actress Barbara Steele, Italian Gothic horror went overseas and reached cult status. The book examines the Italian Gothic horror of the period, with an abundance of previously unpublished production information drawn from official papers and original scripts. Entries include a complete cast and crew list, home video releases, plot summary and the author's analysis. Excerpts from interviews with filmmakers, scriptwriters and actors are included. The foreword is by film director and scriptwriter Ernesto Gastaldi.

This book presents the first critical edition of the "Syncategoremata" by the thirteenth-century philosopher Peter of Spain (Petrus Hispanus Portugalensis), accompanied by a facing-page English translation to make its contents accessible to modern readers. The introduction gives an account of all the manuscripts used for the edition. Extensive indexes have been added to facilitate the reader's orientation in the book. The treatise on syncategorematic words is a detailed discussion on all kinds of linguistic expressions that do not have a complete meaning by themselves, but only in combination with categorematic terms, e.g. nouns, adjectives. The so-called "syncategoremata" include prepositions, conjunctions, modal words, and the verbs 'is' ("est"), 'begins' ("incipit") and 'ceases' ("desinit"). The work is an indispensable source-book for understanding theories on the philosophy of language and logic thinking in the thirteenth century. Moreover, the treatise throws considerable light on the author's views concerning ontological and metaphysical matters.

The book shows how the "agreement for a cure" disappeared by the end of the early modern period precisely because of the determined opposition of physicians and jurists, who realized that payment by results was incompatible with the professionalization of medicine.

Girolamo Cardano (1501-1576), renowned as a mathematician, encyclopedist, astrologer, and autobiographer, was by profession a medical practitioner. His copious writings on medicine reflect both the complexity and diversity of the Renaissance medical world and the breadth of his own interests. In this book, Nancy Siraisi draws on selected themes in Cardano's medical writings to explore in detail the relation between medicine and wider areas of Renaissance culture. Cardano's medical advice included the suggestion that "the studious man should always have at hand a clock and a mirror"—a clock to keep track of the passage of time and a mirror to observe the changing condition of his body. The remark, which recalls his astrological and autobiographical interests, is emblematic of the many connections between his medicine and his other pursuits. Cardano's philosophical eclecticism, beliefs about occult forces in nature, theories about dreams, and free transitions between academic and popularizing scientific writing also contributed to his medicine. As a physician, he greeted two different types of medical innovation in his lifetime with equal enthusiasm: improved access to the Hippocratic corpus and Vesalian anatomy. Cardano presented himself as a practitioner with special gifts. Yet his medical learning remained rooted in the Galenic tradi-

tion that he often criticized. Meanwhile, he negotiated a career in a medical community characterized by personal and social rivalries, a competitive medical marketplace, and strong institutional and religious pressures. "These three stories, set during the summer of 1940, draw on Italo Calvino's memories of his own adolescence during the Second World War, too young to be forced to fight in Mussolini's army but old enough to be conscripted into the Italian youth bri-

gades. The callow narrator of these tales observes the mounting unease of a city girding itself for war, the looting of an occupied French town, and nighttime revels during a blackout. Appearing here in its first English translation, *Into the War* is one of Calvino's only works of autobiographical fiction. It offers both a glimpse of this writer's extraordinary life and a distilled dram of his wry, ingenious literary voice."--from cover, page [4].

"Chronicling the pleasures and struggles of Michelangelo Merisi (who the world would come to know as Caravaggio) during the painter's early years in Rome, this seminal work is Manara's love letter to his idol--one of the most revered and influential artists in history. Filled with striking and timeless artwork, this hardcover is the first English-language edition of another modern Manara masterpiece"--

A stunningly illustrated metaphysical thriller by the European titan.
