HZBWEK - ZANDER ROGERS

The Insecurity of Freedom is a collection of essays on Human Existence by one of the foremost Jewish thinkers of our time, Abraham Joshua Heschel. his most ambitious scholarly achievement, his three-volume study of Rabbinic Judaism, is only now appearing in English.

Rabbi Abraham Joshua Heschel remains one of the most important figures in American Jewish-Christian relations nearly twenty years after his death. He had a penetrating mind that was never arrogant and a moral passion that never moralized. Together, the thirteen essays of this book testify to his enduring legacy. Beginning with Rabbi Heschel's own "No Religion Is An Island," these writings--by men and women who knew him, studied under him, and struggled with him, people from South Asian, Muslim, Jewish, and Christian traditions--reveal the humble yet soaring spirit of a person who know God transcended the barriers of nation, culture, religion, and historical enmity. As these essays demonstrate, Heschel was spiritual guide to people of many faiths. He won the admiration of men and women in many lands and traditions. Firmly rooted in his own Jewishness, he evoked the genius of other traditions, inspiring believers of all kinds to labor toward a more humane world. Contributors: the editors, Heschel's daughter Susannah, Jacob Y. Teshima, Daniel Berrigan, John C. Merkle, Eugene J. Fisher, John C. Bennett, Fredrick C. Holmgren, Riffat Hassan, Arvind Sharma, Antony Fernando, and Kenneth B. Smith.

Elegant, passionate, and filled with the love of God's creation, Abraham Joshua Heschel's The Sabbath has been hailed as a classic of Jewish spirituality ever since its original publication--and has been read by thousands of people seeking meaning in modern life. In this brief yet profound meditation on the meaning of the Seventh Day, Heschel, one of the most widely respected religious leaders of the twentieth century, introduced the influential idea of an 'architecture of holiness' that appears not in space but in time. Judaism, he argues, is a religion of time: it finds meaning not in space and the materials things that fill it but in time and the eternity that imbues it, so that 'the Sabbaths are our greatcatherdrals.'

Set in the future when "firemen" burn books forbidden by the totalitarian "brave new world" regime.

A biography of the rabbi Abraham Joshua Heschel, who became a symbol of the marriage between religion and social justice “When I marched in Selma, I felt my legs were praying.” So said Polish-born American rabbi Abraham Joshua Heschel (1907–1972) of his involvement in the 1965 Selma civil rights march alongside Martin Luther King Jr. Heschel, who spoke with a fiery moralistic fervor, dedicated his career to the struggle to improve the human condition through faith. In this new biography, author Julian Zelizer tracks Heschel’s early years and foundational influences—his childhood in Warsaw and early education in Hasidism, his studies in late 1920s and early 1930s Berlin, and the fortuitous opportunity, which brought him to the United States and saved him from the Holocaust, to teach at Hebrew Union College and the Jewish Theological Seminary. This deep and complex portrait places Heschel at the crucial intersection between religion and progressive politics in mid-twentieth-century America. To this day Heschel remains a symbol of the fight to make progressive Jewish values relevant in the secular world.

This book explains the philosophical side of religion.

A journalist’s provocative and spellbinding account of her eighteen months spent disguised as a man. Norah Vincent became an instant media sensation with the publication of Self-Made Man, her take on just how hard it is to be a man, even in a man’s world. Following in the tradition of John Howard Griffin (Black Like Me), Vincent spent a year and a half disguised as her male alter ego, Ned, exploring what men are like when women aren’t around. As Ned, she joined a bowling team, took a high-octane sales job, went on dates with women (and men), visited strip clubs, and even managed to infiltrate a monastery and a men’s therapy group. At once thought-provoking and pure fun to read, Self-Made Man is a sympathetic and thrilling tour de force of immersion journalism.

Israel: An Echo of Eternity is Dr. Heschel's book about the past, present, and future home of the Jews. According to Dr. Heschel the presence of Israel has tremendous historical and religious significance for the whole world: "History is not always made by men alone...Israel is a personal challenge, a personal religious issue. We are God's stake in human history. We are the dawn and the dusk, the challenge and the test. The presence of Israel is the repudiation of despair. Israel calls for a renewal of trust in the Lord of history." Abraham Joshua Heschel, one of the foremost religious figures of our time, died in 1972. Israel: An Echo of Eternity is his powerful and eloquent book on the meaning of Israel today.

The man who lives in God is never out of season. It is a disaster as a Christian to be alone and spiritual crime to claim you can do all things beside God. To be alone is not a good option to life. This day, things are falling apart, the centre could not hold. In the journey, we will encounter obstacles and challenges. At times, these challenges are the creations of the devil to slow down our success. We have common enemy who seeks to keep and hold us in bondage. He is Satan. He is against our freedom and growth. If we are to succeed, we must be aware of his antics and have courage for freedom. Without Christ we are in crisis. It is a plus to be in Christ, and majority to be in him. To be in Christ is non-negotiable. He is the gate way that leads to success. With Christ: Weakness Fear Hopelessness dies while Strength Power and courage are born. The Christian is strong or weak depending upon how closely he has cultivated the knowledge of God. The nearer we come to God, the more graciously he reveals himself to us. You can’t be alone. No physician like the Lord, no tonic like his promise, no wine like his love. Find out more in this book. I say good luck.

“Through Heschel, Held’s work reaches out more broadly to treat us to a profound discussion of the great issues in contemporary Jewish theology” (Arthur Green, Hebrew College Rabbinical School). Abraham Joshua Heschel (1907–1972) was a prolific scholar, impassioned theologian, and prominent activist who participated in the black civil rights movement and the campaign against the Vietnam War. He has been hailed as a hero, honored as a visionary, and endlessly quoted as a devotional writer. In this sympathetic, yet critical, examination, Shai Held elicits the overarching themes and unity of Heschel’s incisive and insightful thought. Focusing on the idea of transcendence—or the movement from self-centeredness to God-centeredness—Held puts Heschel into dialogue with contemporary Jewish thinkers, Christian theologians, devotional writers, and philosophers of religion. “Shai Held’s book is a master class in one of the most significant Jewish voices of our time.” —Tablet “In this lucid and elegant study, one of the keenest minds in Jewish theology in our time probes the vision of one of the most profound spiritual writers of the twentieth century, uncovering a unity that others have missed and shedding light not only on Heschel but also on the characteristically modern habits of mind that impede the knowledge of God. The book is especially valuable for the connections it draws with other philosophers, theologians, and spiritual writers, Jewish and Christian. Enthusiastically recommended!” —Jon D. Levenson, Harvard University “[A] thoughtful, illuminating new study of Heschel’s thought . . . It is one of the many virtues of Shai Held’s book that it helps us to place Heschel alongside not only Kaplan but Halevi, Horovitz, and Rav Nahman—as well as the Psalmist.” —Jewish Review of Books

One of the world’s most illustrious and influential theologians here confronts one of the crucial philosophical and religious questions of our time: the nature and role of man. In these three lectures, originally delivered in somewhat different form as The Raymond Fred West Memorial Lectures at Stanford University in May 1963, Dr. Heschel inquires into the logic of being human: What is meant by being human? What are the grounds on which to justify a human being’s claim to being human? In the author’s words, “We have never been as openmouthed and inquisitive, never as astonished and embarrassed at our ignorance about man. We know what he makes, but we do not konw wha he is or what to expect of him. Is it not conceivable that our entire civilization is built upon a minsinterpretation of man? Or that the tragedy of man is due to the fact that he is a being who has forgotten the question: Who is Man? The failure to identify himself, to know what is authentic human existence, leads him to assume a false identity, to pretending to be what he is unable to be or to not accepting what is at the very root of his being. Ignorance about man is not lack of knowledge, but false knowl-

edge.□

Abraham Joshua Heschel was one of the most revered religious leaders of the 20th century, and *God in Search of Man* and its companion volume, *Man Is Not Alone*, two of his most important books, are classics of modern Jewish theology. *God in Search of Man* combines scholarship with lucidity, reverence, and compassion as Dr. Heschel discusses not man's search for God but God's for man--the notion of a Chosen People, an idea which, he writes, "signifies not a quality inherent in the people but a relationship between the people and God." It is an extraordinary description of the nature of Biblical thought, and how that thought becomes faith.

A natural history of the wilderness in our homes, from the microbes in our showers to the crickets in our basements Even when the floors are sparkling clean and the house seems silent, our domestic domain is wild beyond imagination. In *Never Home Alone*, biologist Rob Dunn introduces us to the nearly 200,000 species living with us in our own homes, from the Egyptian meal moths in our cupboards and camel crickets in our basements to the lactobacillus lounging on our kitchen counters. You are not alone. Yet, as we obsess over sterilizing our homes and separating our spaces from nature, we are unwittingly cultivating an entirely new playground for evolution. These changes are reshaping the organisms that live with us -- prompting some to become more dangerous, while undermining those species that benefit our bodies or help us keep more threatening organisms at bay. No one who reads this engrossing, revelatory book will look at their homes in the same way again.

Gathers essays by the Jewish scholar, activist, and theologian about Judaism, Jewish heritage, social justice, ecumenism, faith, and prayer

NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, *The Passenger*.

Abraham Heschel is a seminal name in religious studies and the author of *Man Is Not Alone* and *God in Search of Man*. When *The Prophets* was first published in 1962, it was immediately recognized as a masterpiece of biblical scholarship. *The Prophets* provides a unique opportunity for readers of the Old Testament, both Christian and Jewish, to gain fresh and deep knowledge of Israel's prophetic movement. The author's profound understanding of the prophets also opens the door to new insight into the philosophy of religion.

The excerpts in this book have been grouped around the major themes of Heschel's spiritual vision, God, Prayer, Sabbath, Religion, and so on.

Presents sixty-six poems, originally published in Warsaw in 1933, and now appearing with English translations, in which the young Jewish scholar reveals the spiritual and human concerns of a devout European Jew.

Although Abraham Joshua Heschel (1907-1972) is well-known today-as a philosopher, a Jewish theologian and a social activist-Heschel the poet is not. Nevertheless, those who have read his writings in English, spiritual classics like *The Sabbath* and *Man is Not Alone*, and have been moved by the power of his prose and the subtlety of his expression, will not be surprised to find that in his youth he had actually published a volume of Yiddish poetry in the heyday of Yiddish literature before the Holocaust. The 66 precious poems of *Der Shem Ham'forash-Mentch*, published by Indsel Verlag in Warsaw in 1933, remained close to Heschel's heart all of his life, though few people knew of their existence. It was more than a decade after his passing before most of his admirers learned of them, being treated to a few tantalizing snippets in Samuel Dresner's anthology, *I Asked for Wonder* (a line taken from the dedication of *Der Shem Ham'forash-Mentch*). But what was unknown to most of Heschel's readers was that a complete translation of his poetry in English already existed in his lifetime; and still more amazing, it had been made by his younger contemporary, Zalman Schachter-Shalomi (b. 1924), who would himself become a towering figure in Jewish and world spirituality, but who at the time was just coming into his own and looked to the older Heschel as a mentor. As we learn in the introduction, the first drafts of these translations were given as gifts to Heschel after his heart attack in 1969 to cheer him through his convalescence (sometimes accompanied by recordings of Schachter-Shalomi reading both the Yiddish originals

and the English translations!) Schachter-Shalomi notes that Heschel was satisfied with some of these early drafts and unsatisfied with others. The poems were deeply personal to him and the translations would need to be revised. Unfortunately, Heschel died before he and Schachter-Shalomi could come together to discuss a revision and the translations were put on a shelf. But now, in honor of the 40th anniversary of Heschel's passing, Schachter-Shalomi has taken them down again and completed his own revision for the modern reader of sacred poetry. Thus, we have in this volume something truly unique-the combined work and vision of two of the 20th century's greatest Jewish spiritual luminaries and master's of Yiddish!

Man Is Not Alone is a profound, beautifully written examination of the ingredients of piety: how man senses God's presence, explores it, accepts it, and builds life upon it. Abraham Joshua Heschel's philosophy of religion is not a philosophy of doctrine or the interpretation of a dogma. He erects his carefully built structure of thought upon foundations which are universally valid but almost generally ignored. It was *Man Is Not Alone* which led Reinhold Niebuhr accurately to predict that Heschel would "become a commanding and authoritative voice not only in the Jewish community but in the religious life of America." With its companion volume, *God in Search of Man*, it is revered as a classic of modern theology.

"Abraham Joshua Heschel, descended from a long line of Orthodox rabbis, fled Europe to escape the Nazis. He made the insights of traditional Jewish spirituality come alive for American Jews while speaking out boldly against war and racial injustice"--

In this first one-volume English-language full biography of Abraham Joshua Heschel, Edward K. Kaplan tells the engrossing, behind-the-scenes story of the life, philosophy, struggles, yearnings, writings, and activism of one of the twentieth century's most outstanding Jewish thinkers. Kaplan takes readers on a soulful journey through the rollercoaster challenges and successes of Heschel's emotional life. As a child he was enveloped in a Hasidic community of Warsaw, then he went on to explore secular Jewish Vilna and cosmopolitan Berlin. He improvised solutions to procure his doctorate in Nazi-dominated Berlin, escaped the Nazis, and secured a rare visa to the United States. He articulated strikingly original interpretations of Jewish ideas. His relationships spanned not only the Jewish denominational spectrum but also Catholic and Protestant faith communities. A militant voice for nonviolent social action, he marched with Martin Luther King Jr. (who became a close friend), expressed strong opposition to the Vietnam War (while the FBI compiled a file on him), and helped reverse long-standing antisemitic Catholic Church doctrine on Jews (participating in a secret meeting with Pope Paul VI during Vatican II). From such prodigiously documented stories Heschel himself emerges--mind, heart, and soul. Kaplan elucidates how Heschel remained forever torn between faith and anguish; between love of God and abhorrence of human apathy, moral weakness, and deliberate evil; between the compassion of the Baal Shem Tov of Medzibozh and the Kotzker rebbe's cruel demands for truth. "My heart," Heschel acknowledged, is "in Medzibozh, my mind in Kotzk."

Plato's dialogue the *Timaeus-Critias* presents two connected accounts, that of the story of Atlantis and its defeat by ancient Athens and that of the creation of the cosmos by a divine craftsman. This book offers a unified reading of the dialogue. It tackles a wide range of interpretative and philosophical issues. Topics discussed include the function of the famous Atlantis story, the notion of cosmology as 'myth' and as 'likely', and the role of God in Platonic cosmology. Other areas commented upon are Plato's concepts of 'necessity' and 'teleology', the nature of the 'receptacle', the relationship between the soul and the body, the use of perception in cosmology, and the work's peculiar monologue form. The unifying theme is teleology: Plato's attempt to show the cosmos to be organised for the good. A central lesson which emerges is that the *Timaeus* is closer to Aristotle's physics than previously thought.
