The iconic masterpiece of India that introduced the world to "a glittering novelist—one with startling imaginative and intellectual resources, a master of perpetual storytelling" (The New Yorker) WINNER OF THE BEST OF THE BOOKERS • SOON TO BE A NETFLIX ORIGINAL SERIES Selected by the Modern Library as one of the 100 best novels of all time • The fortieth anniversary edition, featuring a new introduction by the author Saleem Sinai is born at the stroke of midnight on August 15, 1947, the very moment of India's independence. Greeted by fireworks displays, cheering crowds, and Prime Minister Nehru himself, Saleem grows up to learn the ominous consequences of this coincidence. His every act is mirrored and magnified in events that sway the course of national affairs; his health and well-being are inextricably bound to those of his nation; his life is inseparable, at times indistinguishable, from the history of his country. Perhaps most remarkable are the telepathic powers linking him with India's 1,000 other "midnight's children," all born in that initial hour and endowed with magical gifts. This novel is at once a fascinating family saga and an astonishing evocation of a vast land and its people—a brilliant incarnation of the universal human comedy. Forty years after its publication, *Midnight's Children* stands apart as both an epochal work of fiction and a brilliant performance by one of the great literary voices of our time.

Norwegian author Alf Prøysen's feisty little old Mrs Pepperpot appeared for the first time in print in 1955. Translated into well over twenty languages, the now classic Mrs Pepperpot stories have, so far, received surprisingly little critical attention. *Empowering Transformations: Mrs Pepperpot Revisited* fills that long over-due gap by providing a range of essays written by experts in the field. The volume explores Prøysen's heroine in dialogue with recent theorising in order to broaden and deepen the understanding of her enduring popularity. The study introduces Prøysen's works and career to an international readership, but also delves deeper into the Mrs Pepperpot phenomenon. Her character is analysed in view of metamorphosis, power, gender, and queer theory, and the stories' ethical impact is assessed through the use of cognitive literary theory. Mrs Pepperpot's many transformations into other media (illustration, sculpture, radio, TV, and Advent Calendar) are also considered, as well as her relations to nature, animals and technology, which are approached eco- and techno-critically. The volume appeals to an academic readership interested in literature, children's literature, media studies, cultural studies and Scandinavian studies, as well as the general public celebrating Prøysen's 100th anniversary in 2014.

Twenty-Five Ghost Stories by W. Bob HollandTwenty-Five Ghost Stories is a classic collection of scary short stories.

The black and the white rhinoceros have become flagship species for international conservation. They are significant not only for the continuation of a major evolutionary heritage, but also as symbols for the protection of African savannahs. The battle for the survival of these species has been marked by some notable successes and sadly, many failures, and the situation is still critical. The international horn trade ban and the domestic bans imposed in most traditional user states have driven the trade further underground, in some cases inflating prices and making illegal dealing even more lucrative. This Plan is aimed at donors, government and non-government organizations, and all those involved in rhino conservation. It outlines the actions and strategies needed to catalyse support for these majestic animals, and help secure their future in sub-Saharan Africa. The overall conclusion is that, given the political will, stability and adequate field expenditure, rhinos can be conserved in the wild.
