## 1NCVBF - PRECIOUS RAMOS

A colorful workbook that uses the Math Mastery approach to help children learn about geometry and shape. Each book in this unique Math Mastery series developed by experts covers all the essential skills for children in the first stages of their math journey. Every topic is supported by clear examples and helpful hints to encourage proficiency. Aimed at children aged 7-8, this full-color book will help your child to explore 2D and 3D shapes, and find and make angles. It's attractively illustrated and led by appealing characters who offer useful tips to children (and parents) that make learning accessible and interesting. Every child can learn Math with Math Mastery.

This series of 12 educational books provides a basic, formal introduction to the subjects children will cover at pre-school, ages 4-7 and ages 8-11, in Maths, English and Science. Completing the exercises and activities in these books is fun for both children and parents, and will give your child the knowledge and confidence to succeed. The wide variety of curriculum topics covered are presented in a clear and colourful way, with carefully targeted questions and activities and helpful tip boxes to encourage absorption of information.

This Progress with Oxford Multiplication, Division and Fractions Age 7-8 workbook will help your child to progress with these core maths skills while having fun, moving onto the new skills expected at Key Stage 2. Each Progress with Oxford book is focused on the skills your child will need to master at each stage of the school curriculum. The books are precisely matched to your child's age to make sure they are aligned with school expectations for their year, helping children to fully achieve their potential. The series has been created to help every child develop essential skills at home, with minimal help and support. Picture clues are used to show very young

children how to complete activities, whilst reminder boxes, tips and advice support older children to become self-sufficient learners. A lively character accompanies your child through all the colourful and engaging activities, and fun stickers are included to reward their work. A handy progress chart at the end of each book captures their achievements, so you both know what to do next. Find further support on the Oxford Owl at Home website, which provides specific advice on helping your child develop their maths skills, and fun activities to extend their skills.

Traditional multiplication and division drills mixed with fact family problems. One of the best resources for helping students learn the times tables. 100 pages filled with lots of practice problems.
