HAARP (High Frequency Active Auroral Research Program) was a little-known, yet critically important U.S. military defense project which generated quite a bit of controversy over its alleged weather control capabilities and much more.

Find helpful customer reviews and review ratings for P.T.A.H. Technology: Engineering Applications Of African Sciences at Amazon.com. Read honest and unbiased product reviews from our users.

The High-frequency Active Auroral Research Program (HAARP) was initiated as an ionospheric research program jointly funded by the U.S. Air Force, the U.S. Navy, the University of Alaska Fairbanks, and the Defense Advanced Research Projects Agency (DARPA). It was designed and built by BAE Advanced Technologies. Its original purpose was to analyze the ionosphere and investigate the potential for ...
