Peoplesoft Payroll - General Overview and Tables This article provides an overview of each process. During this Analysis, the two primary areas of focus will be Configuration (Control) Tables and Maintain Payroll Data.

These tables are the result of running one of the payroll batch processes. These tables are maintained by the Payroll for North America system. That is, these are tables that the system uses to write back to the database during processing. Notice that the PAY\_EARNINGS table functions both as a payroll input table and as a payroll output table.
