Private Equity: what's happening to this asset class? - CEPRES

Private equity is, strictly speaking, a type of equity and one of the asset classes consisting of equity securities and debt in operating

companies that are not publicly traded on a stock exchange. However, the term has come to be used to describe the business of taking a company into private ownership in order to restructure it before selling it again at a hoped-for profit.

Private equity - Wikipedia

capital with private equity firms. According to Cliffwater LLC, a California-based research firm, private equity firms hold 10% of public pension fund assets, or \$260 billion, up from \$241 billion in 2012. 1. With that much capital flowing into private equity, company valuations are under increased scrutiny. Many believe
