- Callum Innes (b. 1962) is a Turner Prize nominee and one of the most significant abstract painters of his generation - a pure land features 50 new watercolors, which Innes completed in his Oslo studio during lockdown, in 2020 - Introduced with a poem by Thomas A Clark (b. 1944) - a pure land - from which the book takes its inspiration and its title - The book is published to coincide with an exhibition at OSL Contemporary, in Oslo, in February 2021, and then i8 Gallery, in Reykjavik, in April 2021 Callum Innes is one of the few artists working in abstraction to include watercolour as a major part of his practice. As with many painters, his explorations in this medium form a parallel body of work, an activity taken on as a kind of 'break' from his other painting, with different circumstances, conditions and intentions. Innes has been making watercolours for more than 25 years. He began to explore the medium when he was asked to do a show at the Kunsthau, in Zurich. He says: "I blithely said yes to an exhibition without ever having made a watercolour before. It caused a lot of stress at the time, but I gradually developed a way of working with paper and pigment. I am still making watercolours, although they have changed over the years, and now I realise that they inform the oil paintings more and more. When you place two pigments together, either opposite or complementary, and then dissolve them in water you achieve a completely new colour which only reveals itself on the paper. I am often surprised and disappointed in the same hour. "It has been a couple of years since I last spent time with watercolours. When lockdown occurred, in March 2020, I was setting up a new studio, overlooking a fjord in Oslo. It was unfamiliar, and I had no reference to earlier works as I do in Edinburgh. I started to work on a new watercolour series, focusing on them for a week at a time, always starting the day with a black and white one, just to get my hand in ... the black and white ones are the most elusive. "This new body of 50 watercolours feels stronger and more luminous than previous ones. I have kept them sequential in the book, to show how each work informs the next and so on."

Create strikingly realistic floral compositions with luminous colors and delicate floral shapes.

After an introduction to materials and equipment, the author turns to the importance of sketching, showing how to capture a scene with quick pencil drawings for later use in the studio. Subsequent chapters explore outdoor painting in locations all over the world, from Scottish mountain storms and snow in Wiltshire to the dry heat of the Arizona desert or a hill village in Crete. The different approaches needed for these wide-ranging subjects are explored, with the emphasis on simplification and versatility. The colour mixes, washes and brushes used for the paintings are described throughout. Includes both simple sketches for the beginner and more complicated ones for the more advanced artist.
