Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals, entrepreneurs and corporate executives. Every month, BLACK ENTERPRISE delivers timely, useful information on careers, small business and personal finance.

InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.

To meet the dynamic academic demands of twenty-first century digital learners, many institutions of higher learning are offering more online classes than ever before that are accessible to both traditional and non-traditional learners. As such, a growing demand for online courses implies that participating institutions provide faculty with appropriate professional development programs to ensure the design and delivery of quality online courses. The Handbook of Research on Virtual Training and Mentoring of Online Instructors is a critical scholarly resource that highlights the issues, challenges, and online engagement experiences to enhance effective teaching and learning in this learning environment. Featuring coverage on a broad range of topics such as media literacy, professional development, and virtual learning environments, this book is geared towards educational administrators, educators, and instructional designers interested in quality online instruction.

FROM A TO Z—26 WAYS TO LEAVE YOUR LOVER (OR HAVE HIM LEAVE YOU...) When Meredith Broussard celebrated her 26th birthday and realized that she'd survived exactly 26 failed romantic entanglements, she reckoned it was high time to dissect this topic that had filled her life with so much . . . angst. With the help of 26 of today's hottest young female writers, Broussard gets to the heart of the matter. The Dictionary of Failed Relationships is a hip collection of stories, all shedding light on the wide range of emotions (from anger to melancholy to rage supreme) associated with love gone wrong. Ambivalence by Heidi Julavits • Berniced by Eliza Minot • Call-Hell by Amy Sohn • Dagenham

by Anna Maxted • Etiquette by Thisbe Nissen • FAQ by Elizabeth Benedict • Green by Susan Minot • Honeymoon by Mary-Beth Hughes • Islands by Jennifer Macaire • Justice by Kathy Lette • Kid by Martha Southgate • LDR by Colleen Curran • Muay Thai by Rachel Resnick • Nightmare by Pam Houston • Orgasm by Darcey Steinke • Pain by Leslie Pietrzyk • Queer by Pagan Kennedy • Regret by Jennifer Weiner • Savage by Maggie Estep • Threesome by Dana Johnson • Underdog by Judy Budnitz • Vitriol by Shelley Jackson • Worship by Michele Serros • X by Suzanne Finnamore • Yuppie by Lucinda Rosenfeld • Zero by Erika Krouse With tales both deliciously sassy and heartbreakingly true, The Dictionary of Failed Relationships will leave you laughing, crying, or asking that one key important question: Ain't love a bitch?

the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

Robert Schleicher wrote the book on slot car racing—literally. In the three short years since Schleicher's *Slot Car Racing: Tips, Tricks & Track Plans* was published, the hobby has been virtually transformed by new products and technologies. This new volume, a perfect complement to its predecessor, brings readers and racers up to date, offering a concise, comprehensive overview of slot car racing's developments, along with expert, practical guidance for putting this information to good use. A primer on the latest digital and analog developments for both 1/32 and HO scales, Schleicher's book delivers the lowdown on building cars from individual components on ready-to-race chassis, as well as popular tune-up tips to get even more speed and better handling out of today's cars. Schleicher also provides track tests of 70 cars and a slot-car shootout featuring 23 more vehicles. Finally, Schleicher includes nearly 50 track plans: 14 tabletop-size plans for Scalextric, Classic, Carrera, Sport, SCX, and Ninco brand track; 14 plans modeled on real circuits like Watkins Glen, Monaco, Spa-Francorchamps, Sears Point, and the Bahrain and Shanghai F1 courses; and 17 4x8-foot HO scale plans. Illustrated throughout with color photography and track plan line art, this is the book that no serious slot car racer can afford to be without.

Turning 50? Tom Dryden beat you to it three years ago and, to help you find your way (since you will be losing your glasses along with your hearing, muscle tone, short-term memory and, probably, your job, ) compiled this hilarious sneak preview of what you can expect. At 50, *Your Warranty Expires* examines topics that will resonate with every Boomer/Geezer, from the drug companies' disturbing use of classic rock and roll songs to hawk pharmaceuticals, to how to best prepare for the revolting medical procedure your doctor will expect you to undergo regularly now that you're 50. You'll find essays about these topics, along with more than four dozen of his award-winning columns examining the increasingly wacky world in which you can expect to live out the few short years you have left. Read it quickly because, at your age, you never know... Tom Dryden, who runs an advertising agency by day, started writing his column, *Doubting Thomas*, in 1999, for the local newspaper in Wilton, Conn., where he lives with his wife, Judy, two college-age sons, and two idiot dachshunds. He was pleased to be named Best Humor Columnist in New England by the New England Press Association until he remembered that nobody in New England has a sense of humor.

Mother Jones is an award-winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues.

It's time we cleared the air about ham radio. If you think of it as staticky transmissions sent by people in the middle of nowhere, think again. Today's ham radio goes beyond wireless to extreme wireless. Operators transmit data and pictures, use the Internet, laser, and microwave transmitters, and travel to places high and low to make contact. In an emergency or natural disaster, ham radio can replace downed traditional communication and save lives. Whether you're just getting turned on to ham radio or already have your license, *Ham Radio for Dummies* helps you with the terminology, the technology and the talkology. You discover how to: Decipher the jargon and speak the language Buy or upgrade your equipment, including the all-important antennas Build a ham radio shack, complete with the rig, a computer, mobile/base rig, microphones, keys, headphones, antennas, cables and feedlines Study for your license, master Morse code, take the test and get your call sign Unders-

tand the basics of ragchews (conversations), nets (organized on-air meetings) and DX-ing (competing in contacts to make contacts) Keeping logs with the vital statistics, including time (in UTC or World Time), frequency, and call sign Written by Ward Silver, an electrical engineer, Certified Amateur Radio License Examiner, and columnist for QST, a monthly magazine for ham operators, *Ham Radio for Dummies* gives you the info you need to delve into the science or dive into the conversation. It explains how you can: Tune in to the most common types of signals, including Morse Code (CW), single-sideband (SSB), FM, Radioteletype (RTTY), and data signals Break in, introduce yourself, converse, and say or signal goodbye Communicate while traveling (ham radio goes where mobile phones go dead) Register with an emergency organization such as ARES and RACES Help in emergencies such as earthquakes, wildfires, or severe weather Pursue your special interests, including contacting distant stations, participating in contests, exploring the digital modes, using satellites, transmitting images, and more Complete with a glossary and ten pages of additional suggested resources, *Ham Radio for Dummies* encourages you to touch that dial and take that mike. CUL. (That's Morse Code for "see you later.")

Information online is not stored or organized in any logical fashion, but this reference attempts to organize and catalog a small portion of the Web in a single resource of the best sites in each category.

The lending industry is comprised of a wide variety of sectors, such as banking, credit cards, mortgages, leasing and consumer finance. Many of these sectors have interconnections and synergies. In addition, a large number of related services and technologies have a major influence on the lending and credit business. These services include e-commerce, credit risk analysis, call centers and information technologies. Rapid changes have taken place in lending in recent years. For example, large amounts of business and consumer debt are now syndicated or securitized. Meanwhile, non-bank firms, such as GE, have become immense competitors in the lending arena, and international acquisitions are shaping up the globalized banking industry of the near future. This carefully-researched book (which includes a database of leading companies on CD-ROM) is a banking, credit and mortgages market research and business intelligence tool-- everything you need to know about the business of banking, credit cards, mortgages and lending, including: Money center banks; Regional banks; Savings associations; Globalization of the banking and lending industries, including our profiles of nearly 350 of the world's leading international banking firms; Mortgage banking and brokerage; Home equity loans; Credit cards; Lending and other services provided by non-bank enterprises; Significant trends in banking and lending technologies; Risk analysis, payment processing, call centers and other support services; Online banking trends; ATM trends and technologies; Banking industry software.
