3ADZCE - SIERRA RICHARD

Written for mature students with an emphasis on the practical application of mathematics to everyday life, e.g. dealing with personal finance, shopping, and bills.

Revise smart and save! This Revision Workbook delivers hassle-free question practice, covering one topic per page and avoiding lengthy set up time. Build your confidence with guided practice questions, before moving onto unguided questions and practice exam papers. Target grades on the page allow you to progress at the right speed. Exam Alerts highlight common pitfalls and misconceptions in exam questions. With one-to-one page correspondence between this Workbook and the companion Guide, this hugely popular Revision series offers the best value available for Key Stage 4 students.

Provides revision notes on the key topic areas with many examples. Written in CGP style, this work has an odd bit of fun thrown in to keep concentration levels up.

This book has been specifically edited for the two-tier GCSE specification by the highly successful author, David Rayner. The book is targeted at the Higher tier GCSE, and it comprises units organised clearly by topic. Each unit offers: BL Summary of objectives at the start so it is clear what students need to know BL Clear explanations with examples showing the key techniques BL Plenty of practice with clearly differentiated questions pitched at an appropriate level BL Summaries and past exam questions to help students gain responsibility for their learning It forms part of a series of two student books at GCSE, in which the other book caters for the Foundation tier. Oxford's best-selling Revision and Practice books are renowned for their clear explanations and examples supported by a wealth of practice exercises and past examination questions that build students' confidence. Expert author Mark Bindley has a particularly wide experience of lower ability teaching and so has an in-depth understanding of the special needs of Foundation level students. He has completely overhauled the old Foun-

dation GCSE book to create a totally new book covering grades G to D. * Checklists of the mathematical concepts to be covered in the unit and the prior knowledge students will need at the beginning of each unit * Offers brief explanations of why we do maths and why it is essential in everyday life * Numerous carefully constructed exercises and a section of ideas for longer investigations to encourage students to use and apply the mathematics they have learnt * Practice exam questions and answers

With the latest edition in full colour and completely updated for the new GCSE specifications from 2015, this series continues to increase your students' chance of success with your chosen exam board. This book provides a wealth of practice with careful progression alongside substantial revision support for the new-style grading and exam questions.
