With a single action, the Auto Feed Fold enables the operator to fold the feed for tramming or position it for drilling. This also comes in handy when operating one or more drill rigs remotely with the BenchREMOTE option. The extra long feed with 8 meter pipes makes it possible to drill 16 m production holes with just one rod-adding.

SmartROC D65 | Epiroc

The rhythm drill helps to increase bat speed by developing muscles to recognize a proper swing. Use wiffle balls and a training bat for this drill. Assume a proper batting stance. Point the barrel of the bat towards the coach. When the ball is pitched, the hitter should rock back into his stance and attempt to drive the ball.

A 1mm bit was used to drill the hole in the char twine box. (Commercial units have a much deeper cylindrical hollow to hold more char cloth better.) Originally I used a temporary piston stop made by using a pair of vice grips clamped around the piston shaft where the handle would be attached to the piston shaft to keep the char twine from striking the bottom of the bore.
