Installation Manuals | Vortech Superchargers

The Rotrex C-type supercharger model range is a series of high performance superchargers with integrated oil system. This instruction sheet describes the installation of the oil system and should be regarded as a supplement to the general installation instructions of the C-type supercharger range available for download on the Rotrex website.

Rotrex superchargers also operate much cooler when compared to turbochargers

and other supercharger systems, which reduces the engine's intake air temperature as well as its risk of detonation. Rotrex superchargers are renowned for their compact size, high adiabatic efficiency, low vibration, and quiet operation.

Rotrex - Track Dog Racing

The TDR Rotrex now comes standard with the C30-94 supercharger for all model years. This provides you with the most potential horsepower. We detune it to 10/11 psi with a larger supercharger pulley for our standard kit which uses our TDR Fuel and Timing Cards. The limiting factor of this setup is the fueling while retaining the

stock ECU.
