Dremel knows that versatility is a key consideration, so the Dremel 4300 is equipped with a three-jaw chuck (the ol' familiar collet is included too). This is so important because the chuck makes the 4300 compatible with every Dremel attachment, drill bit and accessory regardless of shank size and without changing collets.

I used the Dremel multi-tool to plunge cut the shelf and to finish the straight cuts from the circular saw. I also used the sanding attachment to sand the edges and the flat face inside the cut. It worked very well. The ease of changing the blades and storing the tool wrench really made this project easy to accomplish. - Randy
