During the first half of the sixteenth century the Spanish Inquisition fought "Lutheranism" in a benign way, but as time passed the power struggle between those that favoured reform and the detractors intensified, until persecution became relentless under the mandate of Inquisitor General Fernando de Valdés. The power struggle did not catch Constantino by surprise, but the tables turned faster than he had expected. On 1 August 1558 Constantino preached his last sermon in the cathedral of Seville; fifteen days later he was imprisoned. Constantino's evangelising zeal is evident in all his works, but the core of his theology can be found in *Beatus Vir*, where he deals with the doctrines of sin and pardon, free grace, providence, predestination, and the relationship between faith and works. In his exposition of Psalm 1, Constantino does not resort to human philosophies but associates the spiritual fall of humanity with ugliness. In his exhortation to the reader, he states: "we shall plainly see the repulsiveness of that which seems so good in the eyes of insane men, and the beauty and greatness of that which the Divine Word has promised and assured those who turn to its counsel."

Baltasar Bustos--an inflamed revolutionary democrat--sneaks into the bedroom of the wife of the Marquise de Cabra and kidnaps her baby, replacing it with the child of a black prostitute, and falls instantly in love with the Marquise's sleeping wife

Carlos Fuentes is a master of modern world literature. With the translation of his major works into English and other languages, his reputation has surpassed the boundaries of his native Mexico and of Hispanic literature and has become international. Now each new novel stimulates popular and scholarly reviews in periodicals from Mexico City and Buenos Aires to Paris and New York. *Carlos Fuentes: A Critical View* is the first full-scale examination in English of this major writer's work. The range and diversity of this critical view are remarkable and reflect similar characteristics in the creative work of Carlos Fuentes, a man of formidable intellectual energy and curiosity. The whole of Fuentes' work is encompassed by Luis Leal as he explores history and myth in the writer's narrative. Insightful new views of single works are provided by other well-known scholars, such as Roberto González Echevarría, writing on Fuentes' extraordinary *Terra Nostra*, and Margaret Sayers Peden, exploring *Distant Relations*, for which she served as authorized translator. Here too are fresh approaches to Fuentes' other novels, among them *Where the Air Is Clear*, *Aura*, and *The Hydra Head*, as well as an examination by John Brushwood of the writer's short fiction and a look by Merlin Forster at Fuentes the playwright. Lanin Gyurko reaches outside Fuentes' canon for his fascinating study of the influence of Orson Welles' *Citizen Kane* on *The Death of Artemio Cruz*. Manuel Durán and George Wing consider Fuentes in his role as critic of both literature and art. *Carlos Fuentes: A Critical View* has been prepared with the writer's many English-speaking readers in mind. Quotations are most frequently from standard, readily available English translations of Fuentes' works. A valuable chronology of the writer's life rounds off the volume.

The pervasiveness of corruption has been aided by the readiness of both Peruvians and the international community to turn a blind eye.

Collecting new short fiction by the master Latin American writer, this assortment of tales includes stories of mannequin-swiping youths and a bullfighter at the time of Goya

Carlos Fuentes, Mexico's leading novelist, author of *The Old Gringo*, *Terra Nostra* and *The Death of Artemio Cruz*, has produced what is probably the first Third World spy thriller, an action-filled, quick-paced novel of intrigue as contemporary as a headline. *The Hydra Head* has a constant political reality as backdrop: the permanent tension in the Middle East and the vast new oil resources of Mexico, the setting for a brilliant attempt to portray the diversity of one man's experience.

"This book addresses issues of identity, textual composition, discourse, and history in the later novels of Carlos Fuentes." "Readers familiar with other postmodern narratives will find a guide to reading Fuentes, a recognized innovator of Spanish American fiction. To readers familiar with the novels of the Boom and its considerable scholarship, this study provides a key to understanding Fuentes's interest in questions of an epistemological and ontological nature. This process draws on the various interpretive strategies of postmodernity, resulting in an analysis that contributes both to the body of criticism on Carlos Fuentes, and to the development of an accurate conceptualization of postmodern writing in Spanish America."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Confessional Diplomacy in Early Modern Europe examines the role of religion in early modern European diplomacy. In the period following the Reformation, Europe became divided: all over the continent, princes and their peoples split over theological, liturgical, and spiritual matters. At the same time, diplomacy rose as a means of communication and policy, and all powers established long- or short-term embassies and sent envoys to other courts and capitals. The book addresses three critical areas where questions of religion or confession played a role: papal diplomacy, priests and other clerics as diplomatic agents, and religion as a question for diplomatic debate, especially concerning embassy chapels.

A phenomenon as complex as the Fatima event stands itself as a challenge and demands theological reflection. From different perspectives, the core of the Message of Fatima reflects the very heart of revelation. It harmoniously reveals an authentic experi-

ence of Christian mystery at its most genuine and authentic. The symbolic nature of the language stands as a protest and a proposal in the face of particular circumstances in the world and in the Church. Fatima permits us to delve into the most radical logic of the revelation of the Triune God, whose love manifests itself as mercy in order to overcome, from within, the dramatic events of human history. The Little Shepherds bear witness of these designs of mercy announced to them.

Cooking with a little Science opens up a new world to us; an original way to rediscover cooking for children and the young at heart. Chocolate cream, strawberry mousse, sweets, coloured pasta, marmalade, and more, making 9 delicious and original recipes. The author, Asunción Fuente, has prepared an exquisite journey through 9 simple recipes to make with children, which also contain a few secrets which occur whilst they are cooking.

Smitten by the modernity of Cervantes and Borges at an early age, Carlos Fuentes has written extensively on the cultures of the Americas and elsewhere. His work includes over a dozen novels, among them *The Death of Artemio Cruz*, *Christopher Unborn*, *The Old Gringo*, and *Terra Nostra*, several volumes of short stories, numerous essays on literary, cultural, and political topics, and some theater. In this book, Raymond Leslie Williams traces the themes of history, culture, and identity in Fuentes' work, particularly in his complex, major novel *Terra Nostra*. He opens with a biography of Fuentes that links his works to his intellectual life. The heart of the study is Williams' extensive reading of the novel *Terra Nostra*, in which Fuentes explores the presence of Spanish culture and history in Latin America. Williams concludes with a look at how Fuentes' other fiction relates to *Terra Nostra*, including Fuentes' own division of his work into fourteen cycles that he calls "La Edad del Tiempo," and with an interview in which Fuentes discusses his concept of this cyclical division.

After thirty years of anticolonial struggle against Spain and four years of military occupation by the United States, Cuba formally became an independent republic in 1902. The nationalist coalition that fought for Cuba's freedom, a movement in which blacks and mulattoes were well represented, had envisioned an egalitarian and inclusive country--a nation for all, as Jose Marti described it.

But did the Cuban republic, and later the Cuban revolution, live up to these expectations? Tracing the formation and reformulation of nationalist ideologies, government policies, and different forms of social and political mobilization in republican and postrevolutionary Cuba, Alejandro de la Fuente explores the opportunities and limitations that Afro-Cubans experienced in such areas as job access, education, and political representation. Challenging assumptions of both underlying racism and racial democracy, he contends that racism and antiracism coexisted within Cuban nationalism and, in turn, Cuban society. This coexistence has persisted to this day, despite significant efforts by the revolutionary government to improve the lot of the poor and build a nation that was truly for all.

From Despotism to Anarchy by Ramn Prida, first published in 1914, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it. Here is a true literary event--the long-awaited new novel by Carlos Fuentes, one of the world's great writers. By turns a tragedy and a farce, an acidic black comedy and an indictment of modern politics, *The Eagle's Throne* is a seriously entertaining and perceptive story of international intrigue, sexual deception, naked ambition, and treacherous betrayal. In the near future, at a meeting of the United Nations Security Council, Mexico's idealistic president has dared to vote against the U.S. occupation of Colombia and Washington's refusal to pay OPEC prices for oil. Retaliation is swift. Concocting a "glitch" in a Florida satellite, America's president cuts Mexico's communications systems--no phones, faxes, or e-mails--and plunges the country into an administrative nightmare of colossal proportions. Now, despite the motto that "a Mexican politician never puts anything in writing," people have no choice but to communicate through letters, which Fuentes crafts with a keen understanding of man's motives and desires. As the blizzard of activity grows more and more complex, political adversaries come out to prey. The ineffectual president, his scheming cabinet

secretary, a thuggish and ruthless police chief, and an unscrupulous, sensual kingmaker are just a few of the fascinating characters maneuvering and jockeying for position to achieve the power they all so desperately crave.

The way American citizens elect a president in November is enshrined in the Constitution and has remained unchanged for two hundred years. By contrast, the rules by which American political parties nominate their presidential candidates have evolved dramatically over time. In recent years, these byzantine rules have allowed a number of unexpected candidates to win their party's presidential nomination. In *The Best Candidate*, a roster of leading election law scholars from across the political spectrum - true-blue Democrats, die-hard Republicans, and everyone in between - illuminate the law behind the modern presidential nomination process and offer ideas for how it can be improved. This book offers a blueprint for how American voters and their parties could nominate the best candidate for the presidency, and it should be read by anyone who cares about the occupant of the Oval Office.

This essay collection reflects three of the great elements in Fuentes's work--autobiography, love of literature, and politics--beginning with a description of his start as a writer and ending with several of his important political statements, including his celebrated Harvard University commencement speech

A generous selection and fresh translation of Lorca's suites, work that might have taken its place beside *Songs* (1927) and *Poem of the Deep Song* (1931) as a trilogy of Lorca's early modernist lyric. More personal than the other two works, Lorca's suites explore a 'heart without echo' in his time.

Kennedy De La Fuente is enjoying life in Blossom Creek. It's the first time away from home, and the small apartment in the converted barn is perfect. The scenery is, for the most part, similar to that of Montana. The scenery at the small fire station, on the other hand, is nothing like it is back home. Her gaze has a mind of its own and is drawn to the handsome fire chief. Kennedy is finding it increasingly difficult to hide her feelings for the man. It's the very last thing she wants. A heatwave is currently engulfing Blossom Creek and its inhabitants. The fire department is kept busy responding to medical emergencies and attempting to keep the forest surrounding the town from burning. Zeke Davidson has begun to prefer being out on a job so that he's not in close quarters with his office manager, who wears very little due to the oppressive heat. The woman is a distraction he doesn't need—in fact, she is the very last thing he wants. Once again, the *Between the Sheets* Book Club is more interested in gossip than a book. This time, the ladies are discussing Zeke and Kennedy.
