The Baker's Vault is a combination historical-suspense-romance-mystery. APRIL MASON is a writer who cannot write unless she is in love. She's blocked, again. JULIAN MAXWELL, her publisher, frustrated by her block, sends her on a vacation to Paris - the City of Love. He cons KEVIN O'CONNOR, a feature writer for the Paris Gazette (but also an undercover operative for Interpol) into finding April a man so she'll get back to writing. Kevin masterfully screws this up. FRANCOIS DUER, an international mastermind criminal, is in Paris to get a rare book, some counterfeit money, and a few good meals. But, one of his henchman, PEPE DUVALL, got the book, Recit de la Revolution, written in 1797, but lost it. April gets the book, written in 1794, and reads the story about an aristocrat who, while fleeing from the authorities, went down into the sewers, found a vault full of treasure, made a map of its location, hid it in his crotch, then disappeared. Can April find him 200 years later?

He's hot. Like, stop breathing kind of hot with his killer body, vivid blue eyes, and constant five o'clock shadow. Did I mention his body? Watching Hollis Knightly, Olympic diving gold medalist, man-pony specialist-and cocky bastard-stand up on the diving platform in nothing but a small piece of Spandex? Yeah, I'm beguiled. And easily seduced. I want to keep things light but he won't leave me alone. And hell, if he's not wearing me thin. What is supposed to be a simple summer fling with a very hot man, has now morphed into a f*cked-up mess of feelings, attachment, and dare I say it...love. But I don't do relationships. And Hollis Knightly does.

Can a stroke of fate change two lives forever? Amy thought she had it all. An amazing best friend, her dream job, and a never-ending supply of beautiful one-night-stands. This collection of essays makes an original contribution to medieval manuscript studies through deep engagement with the material side of book creation. The volume brings together major scholars of medieval manuscripts with leading contemporary book artists. The result is a ground-breaking collection which will be of interest both for its methodological implications and for the insights that the case studies provide. In a sequence of interconnected essays, experts in the field of litera-

ture, history, art, and manuscript studies enact readings of medieval manuscripts that incorporate extreme attention to the materiality of the object of their study. While the digital revolution has provided unparalleled visual access to medieval manuscripts, these essays are attentive to what has got left behind-not just the aura of the original, but also the engagement of the other senses, such as the feel of the binding, the heft of the volume, the smell of the parchment, or the sound of the pages. By bringing together experienced medievalist scholars with practicing book artists of today, this volume brings back an artisanal sense of the complete book to an understanding of medieval manuscripts.

In Redundant Ruminations of a Hand Well Stroked, the latest book of prose by St. Augustine's resident poet and Florida Keys novelist, William Williamson brings to the page, ruminations on writing as well as timeless observations and recollections from the past and present. His work is shaved, naked and direct. Everyday humanity swathed in the existence of ordinary life. A stripper dancing for dollars, a divorcing couple hooking up for sex, a trip to a pawn shop, a hospital visit, ordering a pizza. Ambiguous moments in life that sears the conscious creating consequential memories that serve a lifetime. What Williamson has dubbed, big woman emotion. Big woman emotion is what life hands us, on any given day or night of the week. Big woman emotion is what time hands us any given hour or mercurial minute of our lives.

Stroked by God is the poignant, funny, and inspirational story of musician John Bumgardner's rise within the music business, the catastrophic stroke-like event that permanently changed the path he was on, and the power of God's healing and redemption. It is the story of someone who lost everything they had achieved, and regained everything that mattered. John is a virtuoso guitarist, multi-instrument musician, and singer-songwriter, originally from Gastonia, North Carolina. His first major success came when he moved to Nashville, Tennessee and became a guitar player and manager for Paulette Carlson, (founding member of "Highway 101.) But, nearing the height of his career in the music industry, John suffered a devastating medical event with many symptoms of a stroke. This event seriously affected his dexterity and memory to the point he could no longer play his instruments. Many people would have become bitter at losing everything they had worked for their whole lives. But John knew that God was not finished with him yet. Through God's grace, John has not only recovered his ability to play music. He plays better than he ever did before. And today he is also an inventor, inspirational speaker, and author. By sharing his compelling story, John hopes that you too will be Stroked by God.

Danielle, Lauren, and Abby journey to an exclusive island spa resort in the hopes of pursuing a no-strings romantic fling, unaware of a legend about a magical elixir that can transform a woman's wildest fantasies into reality or of the presence of a rehabilitation center for injured soldiers, in a steamy erotic anthology. Original.

Reese King: Olympic medalist, underwear model, Greek god.His body is chiseled from rock, sculpted by the weight room, and refined by water.On a daily basis his skin is completely bare for everyone to see, tan and defined, only covered up by a minuscule piece of spandex. There is no denying his sex appeal.I hate to admit it, but I'm head over heels infatuated with him.There is one HUGE

problem though. His achingly gorgeous abs, inked up arm, and cocky swagger belong to my boss, the high-profile, reality star bitch from hell and certified heinous human being, Bellini Chambers. What I think is going to be an easy job assisting a glorified wench turns into a cluster f*ck of epic proportions.

This is the true story of the tragedy that my daughter, Jenna, suffered at the tender age of 14. Life had been good. Within the span of about two weeks, she went from a typical eighth grader, with a bright future in the sport of swimming and the game of life, to a paralyzed, traumatically brain injured, near-death child--the sickest child in the PICU (pediatric intensive care unit). The doctors thought she might have had a stroke, possibly more than one.
