YZWU04 - PITTS CASSANDRA

Originally published in 1963, and today considered a landmark in twentieth century Italian literature, Luigi Meneghello's *Deliver Us* is the memoir, not of an extraordinary childhood, but of the very ordinary one the author shared with most of his generation, when Italy was a rural country under the twin authorities of Church and Fascism. His boyhood begins in 1922, the year of Mussolini's March on Rome, and ends when Meneghello, 21, goes up into the hills to join the partisans. Called a romanzo—a story, although not a novel, as that term usually suggests—the book is a genre all of its own that mixes personal and collective memory, amateur ethnography, and reflections on language. Meneghello's sharp insights and narra-

tive skill come together in an original meditation on how words, people, places, and things shape thought itself. Only loosely chronological, *Deliver Us* proceeds by themes—childhood games, Fascist symbols, religious precepts, and the rites of poverty, of death, of eros, and of love. Meneghello's ironic musings and profoundly honest recollections make an utterly unsentimental human comedy of that was the whole world to his dawning consciousness.

"Harry Brod situates superheroes within the course

of Jewish-American history: they are aliens in a foreign land, like Superman; figures plagued by guilt for abandoning their families, like Spider-Man; and outsiders persecuted for being different, like the X-Men. Brod blends humor and sharp observation as he considers the overt and discreet Jewish characteristics of these well-known figures and explores how their creators integrated their Jewish identities and their creativity."--From publisher description.

Absolutely the only book you will ever need to teach spelling. Teaching strategies include additional tips for use with the learning disabled, and word lists are organized by both sight and sound patterns. Build vocabulary skills with Latin and Greek roots and word lists, and by using the spelling rules to add prefixes and suffixes to root words. Choose from among the suggested activities to include practice with grammar, dictionary, and composition skills. Phonic, spelling, and punctuation rules are listed for easy reference. Word lists are divided by grade, 1 through 8. However, this method is easily adapted for older students or adults who need remedial

work. Because of its multi-sensory and simplified approach to spelling, and because each child can work at his own pace, this program is ideal for students with learning disabilities. Grades K-12.

Megg is a depressed, drug-addicted witch. Mogg is her black cat. Their friend, Owl, is an anthropomorphized owl. They hang out a lot with Werewolf Jones. This may sound like a pure stoner comedy, but it transcends the genre: these characters struggle unsuccessfully to come to grips with their depression, drug use, sexuality, poverty, lack of work, lack of ambition, and their complex feelings about each other in ways that have made Megg and Mogg sensations on Hanselmann's GirlMountain tumblr. This is the first collection of Hanselmann's work, freed from its cumbersome Internet prison, and sure to be one of the most talked about graphic novels of 2014, featuring all of the "classic" Megg and Mogg episodes from the past five years as well as over 70 pages of all-new material.

Winner of the 2016 Pulitzer Prize for Drama Now a major motion picture, available on Disney Plus. Goodreads best non-fiction book of 2016 From Tony Award-winning composer-lyricist-star Lin-Manuel Miranda comes a backstage pass to his groundbreaking, hit musical Hamilton. Lin-Manuel Miranda's groundbreaking musical Hamilton is as revolutionary as its subject, the poor kid from the Caribbean who fought the British, defended the Constitution, and helped to

found the United States. Fusing hip-hop, pop, R&B, and the best traditions of theater, this once-in-a-generation show broadens the sound of Broadway, reveals the storytelling power of rap, and claims the origins of the United States for a diverse new generation. **HAMILTON: THE REVOLUTION** gives readers an unprecedented view of both revolutions, from the only two writers able to provide it. Miranda, along with Jeremy McCarter, a cultural critic and theater artist who was involved in the project from its earliest stages - "since before this was even a show," according to Miranda - traces its development from an improbable performance at the White House to its landmark opening night on Broadway six years later. In addition, Miranda has written more than 200 funny, revealing footnotes for his award-winning libretto, the full text of which is published here. Their account features photos by the renowned Frank Ockenfels and veteran Broadway photographer, Joan Marcus; exclusive looks at notebooks and emails; interviews with Questlove, Stephen Sondheim, leading political commentators, and more than 50 people in-

involved with the production; and multiple appearances by President Obama himself. The book does more than tell the surprising story of how a Broadway musical became an international phenomenon: It demonstrates that America has always been renewed by the brash upstarts and brilliant outsiders, the men and women who don't throw away their shot.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group

meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times. Comics legend John Romita Jr. (The Amazing Spider-Man) makes his DC Comics debut, teaming up with superstar writer Geoff Johns (JUSTICE LEAGUE) and inker Klaus Janson (BATMAN: THE DARK KNIGHT RETURNS) in SUPERMAN: THE MEN OF TOMORROW! The powerful super-being Ulysses is the last son of a doomed planet. Our planet. Thinking Earth's destruction was at hand, his

parents used experimental science to send their son to another dimension. Now he has returned, and Superman has finally found a peer. But will Ulysses become the hero and partner that Superman wants him to be?

Seventy-five percent of processed foods on supermarket shelves—from soda to soup, crackers to condiments—contain genetically engineered ingredients. The long-term effects of these foods on human health and ecology are still unknown, and public concern has been steadily intensifying. This new book from the Council for Responsible Genetics gathers the best, most thought-provoking essays by the leading scientists, science writers, and public health advocates. Collectively, they address such questions as: Are GM foods safe and healthy for us? Will GM food really solve world hunger? Who really controls the power structure of food production? Are GM foods ecologically safe and sustainable? Why is it so difficult to get GM foods labeled in the US? What kinds of regulations and policies should be instituted? How is seed biodiversity, of lack thereof, affecting developing countries? Should animals be geneti-

cally modified for food? How are other countries handling GM crops? Ultimately, this definitive book encourages us to think about the social, environmental, and moral ramifications of where this particular branch of biotechnology is taking us, and what we should do about it.
