The Screwtape Letters is a Christian apologetic novel. It is written in a satirical, epistolary style and while it is fictional in format, the plot and characters are used to address Christian theological issues, primarily those to do with temptation and resistance to it. The story takes the form of a series of letters from a senior Demon Screwtape to his nephew Wormwood, a Junior Tempter. The uncle's mentorship pertains to the nephew's responsibility for securing the damnation of a British man known only as "the Patient". In The Screwtape Letters, C. S. Lewis provides a series of lessons in the importance of taking a deliberate role in Christian faith by portraying a typical human life, with all its temptations and failings, seen from devils' viewpoints. Lewis wrote the sequel Screwtape Proposes a Toast - a critique of certain trends in British public education (Although Britain calls its major private schools "public schools", Lewis is referring to state schools when he criticizes "public education"). Clive Staples Lewis (1898-1963) was a British novelist, poet, academic, medievalist, lay theologian and Christian apologist. He is best known for his fictional work, especially The Screwtape Letters, The Chronicles of Narnia, and The Space Trilogy, and for his non-fiction Christian apologetics, such as Mere Christianity, Miracles, and The Problem of Pain.

She was a young German Jew. He was an ardent member of the Hitler Youth. This is the story of their parallel journey through World War II. Helen Waterford and Alfons Heck were born just a few miles from each other in the German Rhineland. But their lives took radically different courses: Helen's to the Auschwitz extermination camp; Alfons to a high rank in the Hitler Youth. While Helen was hiding in Amserdam, Alfons was a fanatic believer in Hitler's "master race." While she was crammed in a cattle car bound for the death camp Aushchwitz, he was a tennage commander of frontline troops, ready to fight and die for the glory of Hitler and the Fatherland. This book tells both of their stories, side-by-side, in an overwhelming account of the nightmare that was WWII. A repackaged edition of the revered author’s diary from his early twenties—a thought-provoking work that reveals his earliest thinking about war, atheism, religion, and humanity. While serving his country in the Great War, C. S. Lewis’ the great British writer, scholar, lay theologian, broadcaster, and Christian apologist—made a pact with a close friend and fellow soldier. Returning to Oxford, the twenty-three-year old Lewis—then a staunch atheist—struggled to adapt to life in post-war England. Eager to help the tormented young man, Jane encouraged him keep a diary of his day-to-day life. Those reflections are collected in this illuminating journal. Covering five remarkable years in Lewis's life, All My Road Before Me charts the inspirations and intellectual and spiritual development of a man whose theology and writing—including Mere Christianity, The Screwtape Letters, The Great Divorce, The Chronicles of Narnia, and many other beloved classics—has had immense influence on the Christian world.

National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."---Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's The Origin of Consciousness in the Breakdown of the Bicameral Mind. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, The New Yorker "He is as startling as Freud was in The Interpretation of Dreams, and Jaynes is equally as adept at forcing a new view of known human behavior."—American Journal of Psychiatry

In You Are Here, celebrated astronaut Chris Hadfield gives us the really big picture: this is our home, as seen from space. The millions of us who followed Hadfield's news-making Twitter feed from the International Space Station thought we knew what we were looking at when we first saw his photos. But we may have caught the beauty and missed the full meaning. Now, through photographs - many of which have never been shared - Hadfield unveils a fresh and insightful look at our planet. He sees astonishing detail and importance in these images, not just because he's spent months in space but because his in-depth knowledge of geology, geography and meteorology allows him to reveal the photos' mysteries. Featuring Hadfield's favourite images, You Are Here is divided by continent and represents one (idealized) orbit of the ISS. Surprising, thought-provoking and visually delightful, it opens a singular window on our planet, using remarkable photographs to illuminate the history and consequences of human settlement, the magnificence of never-before-noticed landscapes, and the power of the natural forces shaping our world and the future of our species.

The Creator sat upon the throne, thinking. Behind him stretched the illimitable continent of heaven, steeped in a glory of light and color; before him rose the black night of Space, like a wall. His mighty bulk towered rugged and mountain-like into the zenith, and His divine head blazed there like a distant sun. At His feet stood three colossal figures, diminished to extinction, almost, by contrast -- archangels -- their heads level with His ankle-bone. When the Creator had finished thinking, He said, "I have thought. Behold!" He lifted His hand, and from it burst a fountain-spray of fire, a million stupendous suns, which clove the blackness and soared, away and away and away, diminishing in magnitude and intensity as they pierced the far frontiers of Space, until at last they were but as diamond nailheads sparkling under the domed vast roof of the universe. At the end of an hour the Grand Council was dismissed. They left the Presence impressed and thoughtful, and retired to a private place, where they might talk with freedom. None of the three seemed to want to begin, though all wanted somebody to do it.

One brother home from war. The other desperate to save him. A gripping journey together to the river's end. Shane has always worshiped his big brother, Jeremy. But three tours in Iraq and Afghanistan have taken their toll, and the easy-go-lucky brother Shane knew has been replaced by a surly drunk who carries his loaded 9mm with him everywhere and lives in the basement because he can't face life with his wife and two small children. When Jeremy shows up after Shane's football game and offers to take him to the family cabin overnight, Shane goes along — both to get away from a humiliation on the field and to keep an eye on Jeremy, who's AWOL from his job at Quantico and seems to have a shorter fuse than ever. But as the camping trip turns into a days-long canoe trip down the Shenandoah and Potomac Rivers, Shane realizes he's in way over his head — and has no idea how to persuade Jeremy to return home and get the help he needs before it's too late. In a novel at once gripping and heartbreaking, Steve Watkins offers a stark exploration of the unseen injuries left by war.
