#### **Section Iv Thrush Aircraft Management | Thrush Aircraft**

Terry has over 35 years and 12,000 flight hours of experience in agricultural aviation. He served with the United States State Department's Anti-Drug Program in Latin America for some 10 years, and has been actively involved with virtually every model of Thrush Aircraft since the 1970s, in flying, marketing and product development roles.

Thrush Aircraft, Inc. is a tobacco and Drug-Free Workplace. A pre-employment screen for controlled substances will be conducted and candidates must pass before employment will be offered. The Company may require employees to submit to drug and alcohol tests as a condition of its Drug Free Workplace program.

#### **Flight with a Thrush**

The Ayres Thrush, formerly the Snow S-2, Aero Commander Ag Commander, and Rockwell Thrush Commander, is an Ameri-

can agricultural aircraft produced by Ayres Corporation and more recently by Thrush Aircraft. It is one of the most successful and long-lived agricultural application aircraft types in the world, with almost 2,000 sold since the first example flew 63 years ago.

Everything you need to safely fly and maintain your aircraft can be downloaded to your computer or smart device for easy reference in the office or at the hangar. And if you want a print copy of your own, let us know and we'll put one in the mail for you.

#### **Home | Thrush Aircraft**

Thrush 510P models have a wing spar life of 29,000 hours. The 510G's wing spar life is 60,000 hours. And the 710P has a spar life of 26,000 hours. A lifetime each, by any measure. Even more impressive, there

hasn't been a single FAA Airworthiness Directive issued against the wings or wing spars on a Thrush aircraft built since 2000.
