Re: SiteScope 11 - Web Script Monitor I am running into a similar problem with WebScript monitors running in SiteScope 9.54. Created with Vugen 9.52, the script runs ok in the

IDE Vugen, but often shows the message "Failed to get performance data" in the SiteScope log.

HP SiteScope Integration Guide HP SiteScope is an agentless application monitoring software from HP which collects server and application health checks across your infrastructure. It supports over 100 different applications out of the box and integrates very nicely with HP Operations Manager.

Welcome to SiteScope. Welcome to SiteScope, a versatile, agentless solution for monitoring web-based business systems and services. This guide contains instructions for installing and setting up the SiteScope software. This document is also available in PDF format,(SiteScopeUG.pdf), in the SiteScope directory.

When SiteScope is reporting data to APM, indicators provide a more detailed view of the health of a configuration item (CI). For details on understanding indicators, see "Health Indicators, KPIs, and KPI Domains" in the APM User Guide in the APM Help.

Engaging end-user experience and efficient service desk based on machine learning. Hybrid Cloud Ma-

agement . DevOps driven, multi-cloud management, orchestration and migration. Network Operations Management . Automate and manage traditional, virtual, and software-defined networks. Data Center Automation
