ulations.

Social Studies for CSEC is a comprehensive text for the CXC CSEC syllabus. There are regular features within each chapter which capture skills, present case studies and highlight ideas for SBA. Questioning relevant to topics and themes is graduated from a basic level to exam level questions at the end of chapters to stretch the pupil.

Tailored to the CCSLC® syllabus, this textbook takes an interdisciplinary approach to Social Studies and focuses on the development of problem-solving skills, research and interpretation skills, appropriate attitudes and behaviours, and the ability to work collaboratively. It provides ample material to tackle the teaching and learning philosophy of CCSLC including additional support in preparation for the student assessment.

Isadora Tattlin is the American wife of a European energy consultant posted to Havana in the 1990s. Wisely, the witty Mrs. Tattlin began a diary the day her husband informed her of their new assignment. One of the first entries is her shopping list of things to take, including six gallons of shampoo. For although the Tattlins

were provided with a wonderful, big house in Havana, complete with a staff of seven, there wasn't much else money could buy in a country whose shelves are nearly bare. The record of her daily life in Cuba raising her two small children, entertaining her husband's clients (among them Fidel Castro and his ministers and minions), and contending with chronic shortages of, well . . . everything (on the street, tourists are hounded not for money but for soap), is literally stunning. Adventurous and intuitive, Tattlin squeezed every drop of juice--both tasty and repellent--from her experience. She traveled wherever she could (it's not easy--there are few road signs or appealing places to stay or eat). She befriended artists, attended concerts and plays. She gave dozens of parties, attended dozens more. Cuba Diaries--vividly explicit, empathetic, often hilarious--takes the reader deep inside this island country only ninety miles from the U.S., where the average doctor's salary is eleven dollars a month. The reader comes away appalled by the deprivation and drawn by the romance of a weirdly nostalgic Cuba frozen in the

1950s.

Migration has become an increasingly important phenomenon for societies, especially given its highly controversial political dimension. The complexity of the migrant integration process and its many varieties present challenges to policymakers who need high-quality information

on which to base decisions. Nowhere is this necessity more pressing than in the development of relevant tax rules that meet the basic requirements of efficiency and equity. Moreover, the ascent of the so-called emerging economies coupled with the stagnation of the richest economies of the world implies reform of the current competition-based international tax regime and the adoption of a more cooperative paradigm. This important and timely book, for the first time in such depth, explores such aspects of the problem as the following: - migration for tax reasons, especially corporate "inversions" (change in corporate residence for tax purposes); - tax consequences related to individuals who receive free or subsidized education in one country and profit from it in another; - taxing cross-border retirement income; and - migration-related aspects of tax preferential treatment of the elderly. With particular emphasis on the effects and opportunities created by the changing international tax regime - and with

attention to the role of tax treaties and recent court cases - chapters by well known tax experts present evidence on the consequences of migration in all its facets and simulate the effects of several recently enacted and proposed changes in tax law in European countries, the United States, and other jurisdictions. The grounded propositions and recommendations offered in this deeply informed book will allow policymakers to draft tax-residence rules that minimize distortion and promote fairness. The book will also be of interest to tax law practitioners and other tax specialists, migration experts, and academics investigating one of the crucial political issues of our time.
