"This practical and helpful volume details

how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Challenging Moments in Psychotherapy* is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--

No, no, no, no, and no. *Montessori Madness!* explains why the incremental steps politicians and administrators continue to propose are incremental steps politicians and administrators continue to propose are incremental steps in the wrong direction. The entire system must be turned on its head. This book ask parents to take a look--one thir-

ty-minute observation--at a Montessori school. Your picture of what educations should look like will never be the same"-- Back cover.

This volume is about Pope Francis, the diplomat. In his eight years of pontificate, Pope Francis as a peacemaker has propagated the ideas of human and divine cooperation to build a global human fraternity through his journeys outside the Vatican. This book discusses his endeavors to connect and develop a common peaceful international order between countries, faith communities, and even antagonistic communities through a peaceful journey of human beings. The book analyses his speeches, and meetings as a diplomat of peace, including his visits to Cuba and the United States, his mediations for peace in Colombia, Myanmar, Kenya, Egypt, Turkey, Jordan, Jerusalem, the Central African Republic, Sri Lanka, and Bangladesh. It discusses the role of Pope Francis as mediator in different circumstances through his own writings, letters, and Vatican documents; his encounters with world leaders; as well as his contributions to a universal understanding on inter-faith dialogue, climate change and the environment, human migration and the refugee crisis. The volume also sheds light on his ideas on a post pandemic just social order, as summarised in his 2020 encyclical. A definitive work on the diplomacy and the trav-

els of Pope Francis, this volume will be of great interest to scholars and researchers of religious studies, peace and conflict studies, ethics and philosophy, political science and international relations. It will be of great interest to the general reader as well.
