"Lao Tzu's Tao Te Ching is not only the single most important text in Chinese spirituality, it is probably the most influential spiritual text in human history. In the past, virtually all translations of this text have been produced either by sinologists having little poetic facility in English, or writers having no ability to read the original Chinese. David Hinton's fluency in ancient Chinese and his award-winning poetic ability combine both of these essential qualifications. Together, they allow a breathtaking new translation that reveals how remarkably current and even innovative this text is after 2500 years. This volume is the last in a series of translations presenting the four central masterworks of ancient Chinese thought : Tao Te Ching, Chuang Tzu, The Analects, and Mencius."--Back cover.

The Encyclopedia of Taoism provides comprehensive coverage of Taoist religion, thought and history, reflecting the current state of Taoist scholarship. Taoist studies have progressed beyond any expectation in recent years. Researchers in a number of languages have investigated topics virtually unknown only a few years previously, while others have surveyed for the first time textual, doctrinal and ritual corpora. The Encyclopedia presents the full gamut of this new research. The work contains approximately 1,750 entries, which fall into the following broad categories: surveys of general topics; schools and traditions; persons; texts; terms; deities; immortals; temples and other sacred sites. Terms are given in their original characters, transliterated and translated. Entries are thoroughly cross-referenced and, in addition, 'see also' listings are given at the foot of many entries. Attached

to each entry are references taking the reader to a master bibliography at the end of the work. There is chronology of Taoism and the whole is thoroughly indexed. There is no reference work comparable to the Encyclopedia of Taoism in scope and focus. Authored by an international body of experts, the Encyclopedia will be an essential addition to libraries serving students and scholars in the fields of religious studies, philosophy and religion, and Asian history and culture.

What is the best way to understand the narratives of self-identity at the beginning of the 21st century? This interdisciplinary collection brings together perspectives from analytical psychology, sociology, psychiatry, psychosocial studies, and psychoanalysis to consider questions about individuation and freedom in our unhinged world. The contributors discuss the meaning of, and need for, individuation in individualized and liquid societies. The book begins with a comparison of three approaches: C.G. Jung's individuation, Ulrich Beck's individualization, and Zygmunt Bauman's liquidity. This sets the tone for further consideration of topics including guilt, social media, global nomads, and surveillance. Theoretical reflections are enhanced by clinical material, and the book emphasizes the connections between sociology and psychoanalysis, offering significant insights into the importance of

psychosocial approaches. This timely work will be of great interest to academics and scholars of psychosocial studies, Jungian studies, sociology, and politics.

Examines the traditional and modern Western interpretations of the Tao-te-ching, and its author, Lao-tzu.

A rich, poetic, and socially relevant version of the great spiritual-philosophical classic of Taoism, the Tao Te Ching—from a legendary literary icon Most people know Ursula K. Le Guin for her extraordinary science fiction and fantasy. Fewer know just how pervasive Taoist themes are to so much of her work. And in Lao Tzu: Tao Te Ching, we are treated to Le Guin's unique take on Taoist philosophy's founding classic. Le Guin presents Lao Tzu's time-honored and astonishingly powerful philosophy like never before. Drawing on a lifetime of contemplation and including extensive personal commentary throughout, she offers an unparalleled window into the text's awe-inspiring, immediately relatable teachings and their inestimable value for our troubled world. Jargon-free but still faithful to the poetic beauty of the original work, Le Guin's unique translation is sure to be welcomed by longtime readers of the Tao Te Ching as well as those discovering the text for the first time.

This translation captures the terse and enigmatic beauty of the ancient original and resists the tendency toward interpretive paraphrase found in many other editions. Along with the complete translation, Lombardo and Addiss provide one or more key lines from the original Chinese for each of the eighty-one sections, together with a transliteration of the Chinese characters and a glossary commenting on the pronunciation and meaning of each Chinese character displayed. This greatly enhances the reader's appreciation of how the Chinese text works and feels and the different ways it can be translated into English.

The Tao Te Ching is the foundational text of Taoism. Traditionally considered the work of the 'Old Master', Lao Tzu, a senior contemporary of Confucius, this 2500 years old text is a poetic and supremely concise formulation of some of humanity's highest wisdom. Revered as a basic book of spiritual guidance throughout Chinese history, it has become a beloved inspirational work in the West. The present work is meant to help the Western reader to penetrate the depth and subtlety of Lao Tzu's wisdom without requiring a knowledge of the Chinese language. Readers are offered a choice between various interpretations and are guided in non-technical terms to explore how they originate. More importantly, they are also offered the possibility to hold all the various resonances of the text simultaneously, just as a Chinese reader would, and thus access the original wealth of meaning in a way no ordinary translation could convey.

The Tao Te Ching contains the teachings of Lao Tzu, and is considered a fundamental text of the Taoist tradition. The English text has been translated from the French.

L'uomo viaggia alla ricerca di sé. Gettato nell'esistenza, batte il sentiero incolmabile della domanda, sempre la stessa: "da dove si viene, dove si va e perché". Eppure, a cospetto del vasto e silente mistero sull'Essere, capita che abbandoni la via, cercando riparo nella risposta tecnica oppure nel "fare" compulsivo e meccanico. L'enigma filosofico cade, ma non per questo l'Ente percepisce minor sofferenza psichica, minor timore nei confronti della fine e della caducità. Il libro propone di tornare con fiducia alla domanda originaria. Mediante un sereno esercizio di riflessione interculturale e aconfessionale, schiude piccoli varchi sul tema Ego-Sé, parte-intero e corpo-mondo. Senza tecnicismi, avvalendosi della sapienza spirituale antica e delle moderne scienze della mente, aiuta a prendere contatto con il "qui e ora", ad accettarsi con amore e scoprire la personale elezione, il dono - latore di scopo e significato - custodito nel "sacratio del cuore". Un piolo dopo l'altro, risulterà più semplice riconoscere la Totalità di cui ognuno è parte, e di lì compiere un balzo intuitivo, oltre la parola, per dimorare nella Grande Libertà dell'Intero.

According to tradition, Lao Tzu wrote the eighty-one short chapters of his Tao Te Ching around the sixth to fourth centuries B.C.E. It became the foundational philosophical work of Taoism, significantly inspired early masters of Zen Buddhism, and, for more than a century, has been widely embraced in the West as an astounding work of universal truths. Through deceptively simple imagery, Lao Tzu gave us a guide to life, both spiritual and physical, that is no less valid today than when it was written more than 2,500 years ago. Claire Sit, the author of *The Lord's Prayer: An Eastern Perspective*, brings us her translation of the Tao Te Ching and, through her deep study and understanding of that text, examines each chapter and places it in the light of Rudolf Steiner's Anthroposophy. In the process, she shows how--although the path of Tao and that of Anthroposophy seem quite different--they complement each other and share many qualities and, in many ways, illumine the hidden truths each has to offer. As in Anthroposophy, on the path of Tao one looks within to know the world and into the world to know one's self. Just as we can learn much about ourselves by looking outward to the world and to others, we can also better understand the depths of Anthroposophy by penetrating wisdom traditions beyond our own path. Indeed, Lao Tzu and Anthroposophy will generate much food for reflection and meditation for the reader.

The great depth and diversity of Taoist spirituality is introduced in a single, accessible manual Millions of readers have come to the philosophy of Taoism thanks to the classics Tao Te Ching and the I Ching, or through the practices of t'ai chi and feng-shui, but the Tao is less known for its unique traditions of meditation, physical training, magical practice and internal alchemy. Eva Wong, a leading Taoist practitioner and translator, provides a solid introduction to the Way. All of Taoism's most im-

portant texts, figures, and events are covered, as well as its extraordinarily rich history and remarkable variety of practice. Sections include: • The History of Taoism traces the development of the tradition from the shamans of prehistoric China through the classical period (including the teachings of the famous sage Lao-tzu), the beginnings of Taoism as a religion, the rise of mystical and alchemical Taoism, and the synthesis of Taoism, Buddhism, and Confucianism. • Systems of Taoism explores magical sects, divination practices, devotional ceremonies, internal alchemy, and the way of right action. • Taoist Practices discusses meditation, techniques of cultivating the body, and rites of purification, ceremony, and talismanic magic. This roadmap to the spiritual landscape of Taoism not only introduces the important events in the history of Taoism, the sages who wrote the Taoist texts, and the various schools of Taoist thinking, but also gives readers a feel for what it means to practice Taoism today. A comprehensive bibliography for further study completes this valuable reference work.

You are holding a unique and special book in your hand. It is unique in many aspects. In western contemporary art the spiritual and religious elements exist primarily as cultural historical references, personal faith and religion being understood as the most private and intimate issues. It is indeed a brave and rare statement for an artist to confess that a spiritual quest is the foundation and basic element of his work. Born in a multi-religious family, Gabriele Goria started his own spiritual odyssey at a remarkably early age. He devoted his life to the practice of meditation and training in martial arts. Not a very common combination of activities for a young person. Drawing on his lifelong training in T'ai Chi Ch'üan and Ch'i Kung together with working on meditation techniques and philosophical and spiritual enquiry, Gabriele has developed his own approach to making and teaching theatre. In this book the writer describes vividly his long and multi-dimensional way from the crucifix of the Roman Catholic Church to Paramahansa Yogananda to arrive at a synthesis which he has named Experiential Pluralism. Gabriele Goria also tells us how naturally his multi-religious background and all his other interests form the basis for his creative work. In his two long-term projects *Moving the Silence* and *Hermits in Progress*, Gabriele Goria walks the talk: he is fearlessly testing his way of thinking in practice in very demanding surroundings. During these processes the complexity of different philosophical theories is embodied in movement and silence. It is interesting to follow a narrative, in which all words become useless, and making and teaching art and a personal spiritual search flow into a single process. Gabriele Goria writes about his own process in very honest and sincere words. The reader becomes convinced that Goria has a lifelong mission, which is anything but dogmatic and restrictive. His concept of Experiential Pluralism is a true and living ecumenism. What could our times need more! Gabriele may not like to be called exceptional or unique, but all I can say is that I've never met anyone like him. Childress takes us around the world and back in his trippy finale to the *Lost Cities* series. He is off on an adventure in search of the apocalypse and end times. He has flipped out, and more. Childress hits the road from the fortress of Megiddo, the legendary fortress in northern Israel where Armageddon is prophesised to start. Hitchhiking around the world, Childress takes us from one adventure to another, to ancient cities in the deserts and the legends of worlds before our own. Childress muses on the rising and falling of civilisations and the forces that have shaped mankind over the millennia, including wars, invasions and cataclysms. He discusses the ancient wars of the past, including evi-

dence for ancient atomic wars, and relates the dim past with the present and dim future. With humour, philosophical insight, and wonder at the amazing world around us, Childress shows us the many traces of advanced civilisation in the past, and how we should look at them differently than modern scientists currently do.

Le piante sono influenzate dagli astri al momento della loro germinazione, durante la crescita, allora perché non anche l'uomo? Come alcune piante stanno bene insieme, per meccanismi di interazione ormonale a livello delle radici, ed altre si evitano, così anche i segni zodiacali cinesi possono avere rapporti diversi tra loro, rapporti che comunque possono, con un po' di impegno, sempre migliorare. E' proprio di queste interazioni che si occupa Patricia Müller nel presente testo... dott.ssa Chiara Scozzari Chi tratta politicamente e commercialmente con la sfera culturale cinese, potrebbe trarre beneficio da una più approfondita comprensione di come le persone, in estremo Oriente, concepiscono se stesse e gli altri attraverso l'oroscopo. dott.ssa Margot Jean Wylie Nella storia della medicina, sia in Oriente che Occidente, l'astrologia in passato ha guidato l'individuazione delle malattie secondo il tipo astrologico della persona. The 70th volume of the Eranos Yearbooks presents the work of the last three years of activities at the Eranos Foundation (2009-2011). It includes the papers given on the theme of the 2011 conference, *About Fragility in the Contemporary World*, together with talks given on the occasion of the seminar cycle entitled, *Eranos Jung Lectures*, which took place during the years 2010-2011 to commemorate the 50th anniversary of Carl Gustav Jung's passing. Eminent international scholars gathered to share their work, presented here primarily in English, along with some chapters in Italian. This publication carries additional special meaning in further consolidating the collaboration with the Fetzer Institute by presenting the manuscripts of the *Dialogues on the Power of Love*, held at Eranos between 2008 and 2011. This project follows the path of the original model of Eranos, especially the aspect of dialogue, searching for understanding and deepening crucial themes in the contemporary world. Contents: 2011 Eranos Conference: *About Fragility in the Contemporary World* 2008-2011 Fetzer Institute *Dialogues at Eranos - The Power of Love: - Love in the Esoteric Traditions - Love in the History of Eranos - Love and Beauty in the Visual Arts - Love and the Social Bond - Love and the Musical Arts* 2010-2011 Eranos-Jung Lectures The Greek word 'Eranos' means a 'banquet', to which every guest contributes. From 1933 onwards, the Eranos Conferences took shape in Ascona-Moscia (Switzerland), springing from the idea of Olga Fröbe-Kapteyn to create a 'Meeting Place of East and West'. Under the influence of the psychologist Carl Gustav Jung and other prominent leaders of that era, the Eranos Conferences found their way towards symbolical, archetypal, and mytho-

logical motifs. The Eranos gathering is symbolized by its famous Round Table, the image and meaning of which inspired many of the leading thinkers of the 20th century. For more than 70 years, depth psychologists, philosophers, theologians, orientalist, historians of religions as well as natural scientists find at Eranos a unique place where they could meet and exchange views. The rich collection of Eranos Yearbooks bears testimony to an immense and original work accomplished in various fields of learning.

A complete guide to the history, philosophy and practice of an ancient Chinese spiritual tradition. 'Of ways you may speak, but not the Perennial Way; By names you may name, but not the Perennial Name.' The best-loved of all the classical books of China and the most universally popular, the Daodejing or Classic of the Way and Life-Force is a work that defies definition. It encapsulates the main tenets of Daoism, and upholds a way of being as well as a philosophy and a religion. The dominant image is of the Way, the mysterious path through the whole cosmos modelled on the great Silver River or Milky Way that traverses the heavens. A life-giving stream, the Way gives rise to all things and holds them in her motherly embrace. It enables the individual, and society as a whole, to harmonize the disparate demands of daily life and achieve a more profound level of understanding. This new translation draws on the latest archaeological finds and brings out the word play and poetry of the original. Simple commentary accompanies the text, and the introduction provides further historical and interpretative context. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

A Guide to Oriental Classics

This book guides readers through ten classic works of Asian philosophy. Several major schools of Eastern thought are discussed, including Hinduism, Buddhism, Confucianism, Daoism/Taoism, and Chan/Zen. The author connects the ideas of these schools to those of Western philosophy, thereby making the material accessible to people who are unfamiliar with the cultures and intellectual traditions of Asia. A wide range of important topics are addressed: reality, time, self, knowledge, ethics, human nature, enlightenment, and death.

Questo libro non è solo il più antico testo taoista e teologico: nozione che ho cercato di contestualizzare nelle prime pagine dell'introduzione e che saranno il mio commento e la mia indicazione per guidarvi nella comprensione di questo testo che è considerato dai critici recensori, che ne conoscono diverse traduzioni, uno dei più importanti e densi di significato mai scritti nella storia conosciuta che in questo caso io collocherei al 226-249 d. C., nel periodo storico in cui visse Wang Bi, il firmatario di questo testo denominato "Standard", alla fine della dinastia cinese Han là in oriente, ed alla fine dell'impero romano qui in occidente. Questo libro è anche una mia interpretazione prosaico-logica della traduzione di tutti i 5000 caratteri che lo compongono e che ho infine riscritto in un glossario giustificativo che pubblicherò in una successiva edizione. Alla fine di questa traduzione, mi sembra essere un testo costituito da descrizioni riferite a conoscenze del II secolo d.C. tra cui ho notato due volte un probabile riferimento al nome di Gesù e ad un'ultima cena d'addio, oltre che la famosa nozione denominata "Yin e Yang" o "Femminile e Maschile" la cui illustrazione classica denominata "Taijitu" è forse il simbolo più conosciuto di questa interessante dottrina taoista cinese.

We all have a common denominator. We all would like something easy to follow that could make a difference in the quality of our lives. This book does just that. This volume offers an aesthetic reading of the Muqaddima by Ibn Khaldūn (d. 1406), a text that has been studied up to the present as a work on historiography. It argues that the Muqaddima is also a comprehensive treatise on classical Arab-Islamic culture and provides a picture of classical Arab-Islamic aesthetics in its totality. The theme of the book is the intrinsic connection between beauty and

knowledge in the Muqaddima. Whenever Ibn Khaldūn deals with the problem of knowledge and science, he also deals with the problem of sensual beauty as an instrument or an obstacle to attain it. Ibn Khaldūn's philosophy of history is necessarily also an aesthetics of history. His key-notion of "group feeling", the physical, ethic and aesthetic virtue of Bedouin societies, is at once the origin of the ascent of centralised States and the cause of their ruin. It represents a tragic contradiction that applies to the history of the Maghreb but then takes a universal value. It reflects a range of other

contradictions inherent to the "system" of classical Arab-Islamic aesthetics. These contradictions undermine the aesthetic system of the Muqaddima from within and provide decisive elements for the emergence of modern aesthetics. Offering a comparative approach, the volume is a key resource to scholars and students interested in Arabic and Islamic studies, philosophy, aesthetics and global history.
