We wrote this book with three goals in mind. First, to help you reduce your taxes. Many people pay too much tax because they do not know how to reduce their tax. This book shows you how to plan. It is not designed to tell you everything about tax. Rather, it is a collection of the advice we give that saves the most money and helps the most people. Second, to write a book on tax you can understand. This book explains in easy-to-read language 101 ideas for reducing your taxes. The ideas are short and straightforward. Numerous examples explain the ideas. We have found that when you understand an idea, it is easier to implement. Third, to alert you to current tax planning opportunities. The tax laws are constantly changing. We include in this book some of the best tax saving ideas under the current law to help you increase your awareness of the newest strategies. In this eleventh edition, we have revised many of the 101 ideas to reflect current strategies as a result of the Tax Cuts and Jobs Act, the 2020 Covid relief bills, the American Rescue Plan Act, the Inflation Reduction Act, and other recent tax legislation. We included information on many recent changes such as tax rates, "Kiddie Tax" rules, and qualified business income tax deductions. We have again added chapters on recent tax law changes and proposed legislation to give you an idea of what Congress has done and plans to do. We have also included Appendix C, which explains how to look up answers for yourself; Appendix D, which provides a planning checklist; Appendix E, which provides a summary of education incentives; Appendix F, which provides a summary of retirement plan alternatives; Appendix G, which provides a capital gains chart; and Appendix H, which helps you determine if you can claim someone as a dependent. By using this book, you will be more aware of tax planning opportunities. If you find that an idea might work for you, you can research it further using the references in Appendix B. If you use an adviser, you will be a better participant in the planning process. You can mention the strategy and references to your adviser and implement the idea together. Many of the provisions in the Tax Cuts and Jobs Act expire December 31, 2025. Thus, multi-tax year planning is critical.--Publisher.

The new Section 199A business deduction should save business owners and real estate investors thousands of dollars of tax annually. How? Section 199A provides owners of pass-through entities with a deduction equal, potentially, to 20% of their business income. Unfortunately, the 20 page law and nearly 300 pages of regulations burden small businesses and individual investors with tricky rules and complicated accounting. Hence, this book for tax accountants, financial advisers, business attorneys and sophisticated business owners... "Maximizing Section 199A Deductions" covers in detail how the new deduction works with up-to-date information and insights for the 2019 tax filing season. Need more detailed information? Maximizing Section 199A Deductions includes the following chapters: *Chapter 1 - The Section 199A Deduction in a Nutshell: An overview of the deduction to understand the big picture and begin thinking in broad brush strokes about how the deduction works for small businesses, real estate investors,

and investors in REITs and qualified publicly traded partnerships. *Chapter 2 - What Counts as Qualified Business Income: Detailed discussions of exactly what types of business income taxpayers can shelter with the Section 199A deduction, with specific discussions of the rules that apply to different types of business owners and investors: sole proprietorships, partnerships, S corporations, trusts and estates, and then investors in REITs and qualified publicly traded partnership. Also, coverage of how qualified business income accounting works for Section 1031 exchanges, Section 1031 involuntary transfers and for Section 351 incorporations and Section 721 partnership formations. *Chapter 3 - Specified Service Trade or Business Disqualification: In-depth coverage of which types of businesses lose some or all of the Section 199A deduction as a result of falling into a specified service trade or business like health services, law, consulting, accounting, actuarial science, performing arts, athletics, investment services, brokerage and trading services, and situations where the business relies on the skill or reputation of a single celebrity. *Chapter 4 - Accounting for W-2 Wages and Depreciable Property: Every pass-through entity (so every partnership and S corporation) needs to provide detailed accounting for a business's wages and depreciable property because some taxpayers need this information to calculate their Section 199A deduction. Chapter 4 walks the reader through this burdensome area of the new law. *Chapter 5 - Multiple Trades or Businesses: Chapter 5 describes the additional accounting and reporting required for situations where an individual owns interests in multiple trades or businesses. Chapter 5 also describes the rules for making an aggregation election-and when the aggregation election makes sense. *Chapter 6 - Fourteen Section 199A Deduction Tax Planning Tips: More than a dozen practical, common-sensed tactics taxpayers can use to save thousands in taxes. *Chapter 7 - Unincorporation and S Status Revocation: Detailed analysis of when an S corporation should liquidate or revoke its S corporation status to maximize tax savings. *Chapter 8 - Section 199A Tax Return Preparation Checklist: Just what it says: A checklist of steps taxpayers will want to take to maximize the deduction on the upcoming 2019 tax return. *Chapter 9 - Agricultural & Horticultural Cooperatives and their Patrons: Overview discussion and examples of the rules (including the "grain glitch" fix) for specified agricultural and horticultural cooperatives and their members. The Beginner's Guide to "Tax Preparation" Welcome Newbie - who wants to prepare, reduce, and file taxes yourself... Taxes suck! They suck so bad that they might as well be called "tasses" because they truly are a pain...of a task...to keep track of, prepare, calculate, and file every year. What about hiring an accountant to do the work? Wait, did you forget about needing to stash a couple hundred bucks or more depending on how complicated your tax situation is to pay a professional, which you don't have or don't want to depart with? Simply put - we all hate doing taxes and, even more, giving up a portion of our hard-earned money to the Taxman. We dread them. We can't avoid them. The penalties are there for not complying. Psst...now let us let you in on a little secret. Tax prep isn't as perplexing as you may think. Sure, tax returns are designed with all sorts of convoluted technical wordings and footnotes to throw us, taxpayers, off from easily gaming the taxation system that funds our government and from us easily gaining the optimal tax efficiency for saving on our tax bill, because Uncle Sam does want to squeeze out every last cent. The fact of the matter is, anybody can file taxes - and for free - without ever needing to pay for an accountant or throw money at the latest popular tax software. If you have never done your own taxes before, you're in luck. "Tax Preparation for Beginners" is precisely what the greedy Taxman hates and what you need to get you up to speed and empower you to feel confident and competent to file taxes for the first time, all by yourself. "Tax Preparation for Beginners" will guide you through: - The personal information and documentation needed upon filing your tax return - The good old-fashioned doing taxes by hand-on-paper for seniors or technophobes - The eFile way of submitting taxes directly to the IRS for free with no muss, no fuss - The convenient software to handle complex tax situations, expenses, and deductions - The safely-guarded methods nobody uses, except the rich, to pay as little to no taxes ...on top of everything else that beginners need to know. You will not

only get a guiding hand on preparing taxes - but also the secret to NOT paying taxes...legally...like how the wealthy do. Alright, that might be too far of a stretch - so at the very least, lower your taxes dramatically below the standard limitation via "tax hack strategies," which even an accountant probably doesn't disclose upfront unless you already know how to exploit those things and bring them up. Also, shall we dare say that you might find doing taxes fun? We know! That's likely blasphemy to associate "tax" with "fun." Yet, there's no denying that getting bigger than anticipated "tax refund" is always "tax fun." Right? Fear no more of the Taxman and taxes, newbie. Now even a high schooler, who knows diddly-squat about finance while still living in their parent's basement, can file taxes on their own after getting their first job and paycheck ever. You'll never have apprehension again but instead - the capability in doing all your taxes from now on.
