Finalist for the 2012 National Book Award A Time and People Top 10 Book of 2012 Finalist for the 2012 Story Prize Chosen as a notable or best book of the year by The New York Times, Entertainment Weekly, The LA Times, Newsday, Barnes & Noble, Amazon, the iTunes bookstore, and many more... "Electrifying." –The New York Times Book Review “Exhibits the potent blend of literary eloquence and street cred that earned him a Pulitzer Prize... Díaz’s prose is vulgar, brave, and poetic.” –O Magazine From the award-winning author, a stunning collection that celebrates the haunting, impossible power of love. On a beach in the Dominican Republic, a doomed relationship flounders. In a New Jersey laundry room, a woman does her lover’s washing and thinks about his wife. In Boston, a man buys his love child, his only son, a first baseball bat and glove. At the heart of these stories is the irrepressible, irresistible Yunion, a young hardhead whose longing for love is equaled only by his recklessness--and by the extraordinary women he loves and loses. In prose that is endlessly energetic, inventive, tender, and funny, these stories lay bare the infinite longing and inevitable weakness of the human heart. They remind us that passion always triumphs over experience, and that “the half-life of love is forever.”

With a foreword by New York Times bestselling author Dr. Joseph Mercola. Achieve more with less effort: The secret to weight loss, fitness, and wellness lies in the most basic and most overlooked function of your body—how you breathe. One of the biggest obstacles to better health and fitness is a rarely identified problem: chronic over-breathing. We often take many more breaths than we need—without realizing it—contributing to poor health and fitness, including a host of disorders, from anxiety and asthma to insomnia and heart problems. In *The Oxygen Advantage*, the man who has trained over 5,000 people—including Olympic and professional athletes—in reduced breathing exercises now shares his scientifically validated techniques to help you breathe more efficiently. Patrick McKeown teaches you the fundamental relationship between oxygen and the body, then gets you started with a Body Oxygen Level Test (BOLT) to determine how efficiently your body uses oxygen. He then shows you how to increase your BOLT score by using light breath-

ing exercises and learning how to simulate high altitude training, a technique used by Navy SEALs and professional athletes to help increase endurance, weight loss, and vital red blood cells to dramatically improve cardio-fitness. Following his program, even the most out-of-shape person (including those with chronic respiratory conditions such as asthma) can climb stairs, run for a bus, or play soccer without gasping for air, and everyone can achieve: Easy weight loss and weight maintenance Improved sleep and energy Increased concentration Reduced breathlessness during exercise Heightened athletic performance Improved cardiovascular health Elimination of asthmatic symptoms, and more.
