### Observations on the sociology and rehabilitation of the ...

The participant observation method, also known as ethnographic research, is when a sociologist actually becomes a part of the group they are studying in order to collect data and understand a social phenomenon or problem. During participant observation, the researcher works to play two separate roles at the same time: subjective participant and objective observer.

1. Br J Addict Alcohol Other Drugs. 1968 Sep;63(1):15-8. Observations on the sociology and rehabilitation of the alcoholic. Von Keyserlingk H. After deciding upon a research problem, if the re-

searcher starts with a theory and then tests that theory by making specific observations, the researcher is using the \_\_\_\_\_ approach. Induction If a researcher starts with making specific observations, and then works to form a general theory on the basis of those observations, the researcher is using the \_\_\_\_\_ approach.

### "The social transformation of self in Alcoholics Anonymous ... The Alcoholic Self Sociological Observations

Two sociologists searched for Jewish alcohol abusers in an upstate NY city in the belief that alcoholism rates among American Jews had risen. Instead, they found an astoundingly low rate of 0.1% alcohol abusers in this population.

Glassner, B., and Berg, B., "How Jews Avoid Alcohol Problems," American Sociological Review, 1980, Vol. 45, 647-664.
