The point of this all isn't just a sciencey way of saying that people are really judgmental. That may be true [4] It's true., but the more important take-away for how we understand psychology is that our impressions of other people might come down to three simple judgments: their morality, sociability, and competence. Among these three, it seems that our judgments of people's morality dominate our impressions.

Psychology of Judging People: 3 Ways We Judge Others

By John Lauck, CPA, Ph.D. June 1, 2016. Image by pognonici/iStock. Many accountants do not receive formal training in psychology or judgment and decision - making, but foundational concepts in these fields have broad implications for everyone (even accountants). Academic research in both psychology and accounting reveals numerous pitfalls in the human decision - making process that can negatively affect everything from audit quality to the appropriateness of tax positions advocated by ...
