The approach is essentially historical, examining in turn the prehistory and foundation of West German state, the period of strong economic growth and political continuity 1949--66 and the years of interrupted, slower growth and political (policy) discontinuity 1966--85.

Economic Consequences of the War: West Germany's Growth ...

About West German Economy, 1945-1955. This concise overview of the German 'Economic Miracle' of the post-World War Two reconstruction years argues that the German economy was in a far healthier position at the end of the war than previously thought, and that the preconditions for growth - a skilled and abundant labour supply and a favourable international political climate - facilitated the phenomenal 'recovery' and economic growth that was to follow.

Offers an overview of the German 'Economic Miracle' of the post-World War Two reconstruction years. This title argues that the German economy was in a far healthier position at the end of the war Read more...

The Wirtschaftswunder (Economic Miracle), West Germany's rapid economic growth following the Second World War, enjoys mythical status in German public memory and has proven to be an enduring aspect of the German political and cultural identity. Early scholarship has rooted the origins of this economic boom in the 1948 currency reform; foreign ...

Erhard spent the summer de-Nazifying the West German economy. From June through August

1948, wrote Fred Klopstock, an economist at the Federal Reserve Bank of New York, "directive followed directive removing price, allocation, and rationing regulations" (p. 283). Vegetables, fruit, eggs, and almost all manufactured goods were freed of controls.

Germany - Political consolidation and economic growth ...

The Schuman Declaration created the climate in which West Germany's economic miracle flourished. That evocative phrase describes Germany's extraordinary recuperation from the devastation of 1945. Weakened by hunger and shocked by the trauma of defeat and occupation, Germans toiled tirelessly to clear rubble, remove wreckage, reopen roads and railways, and rebuild houses, schools, and hospitals.

The West German Economy, 1945-1955 Schulte shows how the rear areas were constantly short of manpower, were prey to partisan reprisal and brigandage behind the front, and were staffed by older men who grumbled at their posting and connived at local acts of looting and violence.
