Development theory is a collection of  
theories about how desirable change in  
society is best achieved. Such theories  
draw on a variety of social science  
disciplines and approaches. In this  
article, multiple theories are discussed,  
as are recent developments with regard  
to these theories. Depending on which  
theory that is being looked at, there are  
different explanations to the process of

development and their inequalities
