A social organization is characterized by complexity, degrees of inter-dependence between sub-systems, openness, balance and multiplicity of purposes, functions and objectives. Show EXHIBIT 8 and discuss each of these characteristics. Now move to

goal setting in an organization. Ask participants "Why should goals be set?"

Organizational theory consists of many approaches to organizational analysis. "Organizations" are defined as social units of people that are structured and managed to meet a need, or to pursue collective goals. Theories of organizations include rational system perspective, division of labor, bureaucratic theory, and contingency theory. In a rational organization system, there are two significant parts: Specificity of Goals and Formalization. The division of labor is the specialization of individ
