George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

This book offers ideas that secondary teachers, university content faculty, and teacher educators can use to challenge traditional literacy practices and demonstrate creative, innovative ways of incorporating new literacies into the classroom, all within a strong theoretical framework. Teachers are trying to catch up to the new challenges of the twenty-first century. It is a superheroic feat that must be achieved if education is to stay relevant and viable. There is a lot of zip, bam, whap, and wow in the fast-paced, social networking, technological world, but not so much in the often laboriously slow-paced educational world. Where is the balance? How do teachers and students learn together, since one group has seasoned wisdom with limited technological know-how and the other uses all the cool new tools, but not in the service of learning? These are some important issues to consider in finding the balance in an unstable, fast-moving, ever-changing world. This book is practical and useful to literacy teachers, teacher educators, and university faculty by bringing together the expertise of composition/rhetoric researchers and writers, literacy specialists, technology specialists, and teachers who are on the cutting edge of new literacies.
