A Timex WR50M refers to any wrist watch manufactured by Timex that has water resistance up to 50 meters. The "WR" stands for "water resistant." Timex makes a large number of watches that all have the feature of being water resistant up to 50 meters.

The Timex WR 50M uses a snap back for the cover plate for the battery. To change the battery you need a precision screwdriver set because there is a very small Phillips screw that holds the battery inside the watch. A regular screwdriver is too big to remove the screw. Place the face of your Timex watch onto a table covered with a cotton cloth.
