This authoritative set provides a one-stop resource for understanding specific FBI controversies as well as for those looking to understand the full history, law enforcement authority, and inner workings of the nation's most famous and important federal law enforcement agency.

Across the Mitten and through the Upper Peninsula, the Wolverine State has witnessed some thrilling and historic federal cases. In Detroit, FBI agents took point investigating the kidnapping (and safe return) of a GM executive's son and in a manhunt for an armed killer in the north woods near Escanaba. The Bu-

reau was called in to discover who poisoned patients at the Ann Arbor Veterans Hospital and for a grisly double homicide solved by a persistent and determined fingerprint examiner. Michigan agents spearheaded the first-ever investigation and prosecution of an Internet threat, and legendary football coach Bo Schembech-

ler inspired an epic international undercover operation targeting the illegal distribution of steroids. Retired Special Agent Greg Stejskal recalls these stories and others from more than thirty years as a G-man in Michigan.

An Edgar Award Winner for Juvenile Fiction Perfect for mystery buffs with “elements of Alex Rider, James Bond, and Sherlock Holmes,” (School Library Journal) the Framed! series stars the only kid on the FBI Director’s speed dial and several international criminals’ most wanted lists! Middle school is hard. Solving cases for the FBI is even harder. Doing both at the same time—well that’s just crazy. But that doesn’t stop Florian Bates! After helping the FBI solve an art theft at the National Gallery and uncovering a DC spy ring, Florian’s finding life at Alice Deal Middle School a little boring. But that’s all about to change! His FBI handler, Marcus, has a job for him! Is it a bank robbery? Counterfeit ring? International espionage? Actually it’s middle school pranks... Sounds pretty ordinary except that the pranks are happening at a prestigious private school attended by the President’s daughter who may—or

may not—be involved. So Florian and Margaret are going undercover to see if they can use their TOAST skills to figure out what’s going on before the media gets hold of the story. However, once the crime-solving pair arrive at the school, they discover that there’s a lot more than a few pranks going on and the conspiracy of silence reaches all the way to the top. Then a student vanishes in the middle of a concert at the Kennedy Center and things take a sinister turn! Can Florian and Margaret save the day? Or are they about to get toasted?

Dee Henderson Is Back! Ann Silver is a cop’s cop. As the Midwest Homicide Investigator, she is called in to help local law enforcement on the worst of cases, looking for answers to murder. Hers is one of the region’s most trusted investigative positions. Paul Falcon is the FBI’s top murder cop in the Midwest. If the victim carried a federal badge or had a security clearance, odds are good Paul and his team see the case file or work the murder. Their lives intersect when Ann arrives to pass a case off her desk and onto his. A car wreck and a suspicious death offer a lead on a hired shooter he is

tracking. Paul isn’t expecting to meet someone, the kind that goes on the personal side of the ledger, but Ann Silver has his attention. The better he gets to know her, the more Paul realizes her job barely scratches the surface of who she is. She knows spies and soldiers and U.S. Marshals, and has written books about them. She is friends with the former Vice President. People with good reason to be cautious about who they let into their lives deeply trust her. Paul wonders just what secrets Ann is keeping, until she shows him the John Doe Killer case file, and he starts to realize just who this lady he is falling in love with really is...

Criminologists are increasingly exploring nontraditional objects, sources of information, methods of analyzing this information, and explanatory frameworks for helping guide analysis and interpretation. One such nontraditional object is the “fictional reality.” Fictional realities are fictional social realities, such as those found in novels and film. There is a precedent for the analytical and pedagogical use of “fictional realities” in criminology, but in general this has been limited

to seeing fiction and film as a stock of readily accessible and useful examples rather than as complex objects to be deconstructed and theorized. This book will tell you about a variety of famous criminal cases that the FBI use criminology to catch the crimes. In this book, you can find: Hannibal Lecter Joseph Paul Franklin The FBI's Role Takes Shape The Birth of Behavioral Analysis in the FBI Ted Bundy's Campaign of Terror Wayne Williams and the Atlanta Child Murders Andrew Cunanan Murders a Fashion Icon The FBI and Jeffrey Dahmer Mad Bomber George Metesky George "Machine Gun" Kelly

"The voice that narrates In the Name of the Children: An F.B.I. Agent's Relentless Pursuit of the Nation's Worst Predators, which Rinek wrote with the journalist Marilee Strong, sounds warm and humane, qualities missing from much crime writing. Their book is a professional job, filled with illuminating details about the day-to-day operations of the bureau." —New York Times Book Review FBI Special Agent Jeff Rinek had a gift for getting child predators to confess. All he had to do was share a piece of his soul . . . In the

Name of the Children gives an unflinching look at what it's like to fight a never-ending battle against an enemy far more insidious than terrorists: the predators, lurking amongst us, who seek to harm our children. During his 30-year career with the FBI, Jeff Rinek worked hundreds of investigations involving crimes against children: from stranger abduction to serial homicide to ritualized sexual abuse. Those who do this kind of work are required to plumb the depths of human depravity, to see things no one should ever have to see—and once seen can never forget. There is no more important—or more brutal—job in law enforcement, and few have been more successful than Rinek at solving these sort of cases. Most famously, Rinek got Cary Stayner to confess to all four of the killings known as the Yosemite Park Murders, an accomplishment made more extraordinary by the fact that the FBI nearly pinned the crimes on the wrong suspects. Rinek's recounting of the confession and what he learned about Stayner provides perhaps the most revelatory look ever inside the psyche of a serial killer and a privileged glimpse

into the art of interrogation. In the Name of the Children takes readers into the trenches of real-time investigations where every second counts and any wrong decision or overlooked fact can have tragic repercussions. Rinek offers an insider's perspective of the actual case agents and street detectives who are the boots on the ground in this war at home. By placing us inside the heart and mind of a rigorously honest and remarkably self-reflective investigator, we will see with our own eyes what it takes—and what it costs—to try to keep our children safe and to bring to justice those who prey on society's most vulnerable victims. With each chapter dedicated to a real case he worked, In the Name of the Children also explores the evolution of Rinek as a Special Agent—whose unorthodox, empathy-based approach to interviewing suspects made him extraordinarily successful in obtaining confessions—and the toll it took to have such intimate contact with child molesters and murderers. Beyond exploring the devastating impact of these unthinkable crimes on the victims and their families, this book offers an unprecedented look at how

investigators and their loved ones cope while living in the specter of so much suffering.

The FBI expert who coined the phrase "serial killer" reveals how he used evidence from the crime scene to assemble a psychological profile and capture some of the most dangerous killers in the country, in a chilling crimefighter's memoir. Reissue.

Discover the classic, behind-the-scenes chronicle of John E. Douglas' twenty-five-year career in the FBI Investigative Support Unit, where he used psychological profiling to delve into the minds of the country's most notorious serial killers and criminals—the basis for the upcoming Netflix original series. In chilling detail, the legendary Mindhunter

takes us behind the scenes of some of his most gruesome, fascinating, and challenging cases—and into the darkest recesses of our worst nightmares. During his twenty-five year career with the Investigative Support Unit, Special Agent John Douglas became a legendary figure in law enforcement, pursuing some of the most notorious and sadistic serial killers of our time: the man who hunted prostitutes for sport in the woods of Alaska, the Atlanta child murderer, and Seattle's Green River killer, the case that nearly cost Douglas his life. As the model for Jack Crawford in *The Silence of the Lambs*, Douglas has confronted, interviewed, and studied scores of serial killers and assassins, including Charles Manson, Ted Bundy, and Ed Gein, who dressed himself in his victims' peeled skin. Using his uncanny ability to become both predator and prey, Douglas examines each crime scene, reliving both the killer's and the victim's actions in his mind, creating their profiles, describing their habits, and predicting their next moves.

Candice DeLong has been called a real-life Clarice Starling and a female Donnie Brasco. She has been

on the front lines of some of the FBI's most gripping and memorable cases, including being chosen as one of the three agents to carry out the manhunt for the Unabomber in Lincoln, Montana. She has tailed terrorists, gone undercover as a gangster's moll, and posed as the madam for a call-girl ring. Now for the first time she reveals the dangers and rewards of being a woman on the front lines of the world's most powerful law enforcement agency. She traces the unusual career path that led her to crime fighting, and recounts the incredible obstacles she faced as a woman and as a fledgling agent. She takes readers step by step through the profiling process and shows how she helped solve a number of incredible cases. The story of her role as a lead investigator on the notorious Tylenol Murderer case is particularly compelling. Finally, she gives the true, insiders story behind the investigation that led to the arrest of the Unabomber including information that the media cannot or won't reveal. A remarkable portrait of courage and grace under fire, Special Agent offers a missing chapter to the annals of law enforcement and a dramatic and often funny

portrait of an extraordinary woman who has dedicated her heart and soul to the crusade against crime. Candice DeLong's Top Cases: 1. TYMURS-(Bureau acronym for Tylenol Murders) 8 victims, 1982. 2. F.A.L.N. Terrorist Organization, 1981-84. 3. Melissa Ackerman kidnap/rape/murder, 1986 Serial child killer Brian Dugan (Illinois). From John Douglas--the legendary FBI criminal profiler, #1 New York Times bestselling author, and inspiration for the Netflix show Mindhunter--- comes a chilling journey inside the mind and crimes of Larry Gene Bell, one of the most dangerous serial killers Douglas confronted, and the desperate effort to identify and catch him. On May 31, 1985, two days before her high school graduation, Shari Smith was abducted from the driveway of her family home in South Carolina. Based on the crime scene and the abductor's repeated and taunting calls to the family, law enforcement quickly realized they were dealing with a sophisticated and highly dangerous criminal. A letter arrived the next day entitled "Last Will & Testament," in which Shari, knowing she was to be murdered, wrote bravely and aching-ly of her love for her par-

ents, siblings, and boyfriend, saying that while they would miss her, she knew they would persevere through their faith. The abduction rocked her quiet town, triggering a massive manhunt and bringing in the FBI, which enlisted profiler John Douglas. A few days later, a phone call told the family where they could find Shari's body. Then nine-year-old Debra May Helmick was kidnapped from her yard, confirming the harsh realization that Smith's murder was no random act. A serial killer was evolving, and the only way to stop him would be to use the study of criminal behavior to anticipate his next move before he could kill again. Douglas devised a risky and emotionally fraught strategy to use Shari's lookalike older sister Dawn as bait to draw out the unknown subject. Dawn and her parents courageously agreed. One of the most haunting investigations of Douglas's storied career, this case details how the eerily accurate profile he created--alongside his carefully crafted and stage-managed manipulation of the killer's psychology--combined with dedicated police work and cutting-edge forensic science to end a reign of criminal terror. As

Shari's family took incredible personal risks to lure her killer from the shadows, Douglas and the FBI pushed criminal profiling to its limits, culminating in one of his most dramatic and effective confrontations with a sadistic and remorseless killer.

Jim Brady worked with the FBI for thirty-three years—and he's the oldest living retired employee of the Memphis division of the bureau. He began working for the bureau in March 1954, going to fingerprint school in the Washington, D.C. office. There, he learned how to compare and contrast fingerprints and went on to teach at the very same fingerprint school. He served in numerous other roles over the next few decades. Whether it was a federal case, serving on a task force, or working as a private investigator with local, state, and federal officers, he brought his best to the table every day In this book, he examines some of the FBI's most interesting cases, including the investigation

into Martin Luther King Jr.'s assassination. Another interesting case was Billy Dean Anderson, who had been on the FBI top ten list for five years and was found living in a two-room cave in middle Tennessee. He also looks back at the civil era of James Meredith, the first black student to enter Ole Miss and the subsequent rioting that killed two individuals and wounded forty. The book also documents how law enforcement has changed over time, including the increasing importance of computers.

Michaud takes you into the heart of Hazelwood's work through dozens of startling cases, including those of the Lonely Heart Killer, the "Ken and Barbie" killings, the Atlanta Child Murders, and many more. The FBI, an agency of the United States Department of Justice, has investigated many famous cases concerning spies, terrorists, and criminals. For those cases considered particularly significant, the agency has prepared detailed written studies. This paperback edition presents the FBI's monograph concerning Julius and Ethel Rosenberg, an American couple accused of spying for the Soviet Union and of transmitting to them top-secret technology concerning the making of an atomic bomb. Around the time of their scheduled execution (1953), many people throughout the world thought they were innocent and tried to convince US authorities not to electrocute them.

What is the FBI? How did it come into being? What has it accomplished? What are its powers? Above all, what does the mere fact of its existence mean to Every Citizen of the United States? This book, written with the cooperation of J. Edgar Hoover and FBI Personnel will answer these questions once and for all. THE FBI STORY, written by one of America's top reporters, Don Whitehead, and with a Foreword by J. Edgar Hoover, takes you

behind the scenes to reveal the record of America's crusade against crime and subversion. THE FBI STORY names names, places and events. You'll read about cases which have made today's headlines as well as about the celebrated cases and notorious events which made yesterday's. You'll read about the Black Tom explosion and other acts of sabotage which were the prelude to America's entrance into World War I. You will find the case histories of the Wall Street Explosion and "Palmer's Raids"; the Harding Era and Gaston Means. The gangsters' rise to power in the roaring twenties and the "lady in red," Pretty Ana Cump na, who betrayed John Dillinger, and Al Capone. Here too are the Lindbergh Kidnapping, the Kansas City Massacre and many other cases which placed the FBI in the forefront of the public's imagination. THE FBI STORY is the story too of Pearl Harbor, the capture of the Japanese espionage messages, the German saboteurs' invasion of the United States and their capture, and other behind the scenes dramas of World War II. The book tells of the FBI's secret operations in South and Central America and the expe-

periences of its Special Intelligence Service (SIS). How the FBI tricked the Germans through double agent radio stations is a "stranger than fiction" story. You'll read of the FBI's role in combating postwar crime as Don Whitehead reports on the kidnap murder of little Bobby Green-lease and the murder of a mother by her son high over a Colorado beet field when a plane fell carrying passengers and crew to their deaths. The fight against Communism in the United States, Smith Act prosecutions and the gathering of evidence which made these prosecutions possible are all portrayed. Also related are the cases of Hiss and Klaus Fuchs and the theft of the atomic secrets and the Rosenberg and Greenglass cases, which are revealed in detail. The history of the FBI in reality represents the people's efforts to achieve government by law. THE FBI STORY, then, is the story of America itself and the struggles to attain this ideal.

This landmark book classifies the three major felonies--murder, arson, and sexual assault--based upon the motivation of the offender, standardizing in one place, for the first time, the language

and terminology used throughout the criminal justice system. A decade in development, this work forms the basis of contemporary investigative "profiling", the highly acclaimed strategy enabling law enforcement personnel to solve a crime by generating a "profile" of the suspect. This will provide police officers and other law enforcement personnel, as well as mental health professionals, in any size community, access to the same information as used by the FBI to coordinate their investigations.

Fear can't help you in a dangerous situation. A former FBI profiler shows you what can. As one of the world's top experts on psychopathy and criminal behavior, Mary Ellen O'Toole has seen repeatedly how relying on the sense of fear alone often fails to protect us from danger. Whether you are opening the door to a stranger or meeting a date you connected with online, you need to know how to protect yourself from harm--physical, financial, legal, and professional. Using the SMART method, which O'Toole developed and used at the FBI, we can confidently know how to Respond to a threat in any

situation Hire someone who will work inside your home like a contractor or housekeeper Figure out whether a prospective employee is a safe bet Know whom you can trust with your children An especially useful book for women living alone, parents who are concerned about their children's safety, and employers worried about employees who might go postal, Dangerous Instincts gives us the tools used by professionals to navigate potentially hazardous waters. Like The Gift of Fear and The Sociopath Next Door, it will appeal to anyone looking to make the right call in an ever threatening world.

Certain criminal cases have a life of their own. Despite the passage of years they continue their hold on the public imagination, either because of the personalities involved, the

depravity of the crime, doubts over whether justice was done, or the tantalizing fact that no one was ever caught... Now John Douglas, the foremost investigative analyst and criminal profiler of our time, turns his attention to eight of the greatest mysteries in the history of crime, including those of Jack the Ripper, The Boston Strangler and JonBenet Ramsey. Taking a fresh look at the established facts, Douglas and Olshaker dismantle the conventional wisdom regarding these most notorious of crimes and rebuild them - with astonishing results.

Reward takes the reader behind the scenes of an international manhunt and an unusual lawsuit that rattled law enforcement in three countries. The story is born out of a real-life spy thriller--the flight of Peru's notorious National Security chief, Vladimiro Montesinos, who was accused of many crimes. The lawsuit, *Jose Guevara v. Republic of Peru*, was brought by a Venezuelan spy who claimed Peru's \$5 million reward after he was caught in an FBI sting attempting to extort a Miami banker to release Montesinos' dirty money. The next day, Venezuelan President Hugo Chavez triumphantly announced Montesinos' capture and extradition to Peru. What happened in Guevara's jail cell is an untold story that is the key to whether Guevara earned Peru's reward. Cymrot took over Peru's defense after the U.S. Court of Appeals had rebuked Peru for "welch[ing]"--reneging--on its promise to pay Guevara the reward. He uncovered a story that "read like the latest spy thriller," according to the court's second opinion. As this tense story unfolds, Reward provides insights for courtroom spectators

into the art of persuasion, strategies for cross-examination, and storytelling. WORDS OF PRAISE In his latest book, attorney Mark Cymrot takes readers on a personal journey to the front lines of an international legal battle brimming with suspense and intrigue. From the streets of Lima, Peru to the courtrooms of Miami, the gifted attorney is locked between his quest for justice and the rules of the game, as he pushes through a thicket of obstacles, making his moment of victory quite memorable. This is a true adventure story spiced with the plot twists, dodgy characters, and marvelous intricacy of a mystery novel. Ann Hagedorn, former Wall Street Journal staff writer and award-winning author of six narrative nonfiction books, including *Sleeper Agent: The Atomic Spy in America Who Got Away*. Reward was so compelling I read it from cover to cover without putting it down. Terrorism, spies, bribery, FBI agents, chiefs of state, politicians, and bankers became part of Peru's history during the events that became part of the lawsuit *Jose Guevara v. Republic of Peru*. Mark Cymrot proves that he is not only a great lawyer fighting until the end to

win a case but also to be a great writer and a historian. Jose Abramovitz, Peru's Vice Minister of Energy (1985-86), President of Peru's Negotiating Committee for New Oil Contracts, Senior Advisor to Peru's Minister of Interior (2008-09) A fascinating and well-told tale of real-life intrigue involving spies, foreign governments, terrorism, and transnational litigation from a U.S. litigator's unique perspective. David P. Stewart, Professor from Practice, Georgetown University Law Center, co-Reporter, *Restatement (Fourth) Foreign Relations Law of the United States (2018)* ...I was enthralled by how Mark navigated the political and legal tightrope in succeeding in thwarting Jose Guevara's attempt to collect Peru's reward. This wonderful read tells how law, politics and public relations all play a factor in litigating cases, particularly cases that attract international interest.... Johnine P.  #1 NEW YORK TIMES BESTSELLER • A twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history, from

the author of *The Wager* and *The Lost City of Z*, "one of the preeminent adventure and true-crime writers working today."—*New York Magazine* • NATIONAL BOOK AWARD FINALIST • SOON TO BE A MAJOR MOTION PICTURE "A shocking whodunit...What more could fans of true-crime thrillers ask?"—*USA Today* "A masterful work of literary journalism crafted with the urgency of a mystery."—*The Boston Globe* In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover,

turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history. Look for David Grann's latest #1 *New York Times* best-selling book, *The Wager!* LARGE PRINT EDITION Jim Ingram is to the FBI what Elliot Ness was to the Treasury Department—a larger-than-life symbol of American justice, a Klan-busting crime fighter who was involved with some of the highest profile FBI cases of the 1950s, 1960s and 1970s. In his memoir Ingram provides insider information about those cases. Jim Ingram was the primary source in journalist Jack Nelson's 1993 best-selling book, "Terror in the Night: The Klan's Campaign Against the Jews," which focused on the FBI's infiltration of the Klan in an effort to protect Mississippi Jews. Jim Ingram passed away in August 2009 of cancer, but worked on this memoir with co-author James L. Dickerson right up until his death. Following his death, the FBI supplied

Dickerson with more than 1,400 pages of previously classified documents. Interestingly, after nearly 30 years with the FBI, Ingram was brought out of retirement in the 2000s as a cold-case investigator of Mississippi civil rights-era murders, casting him into his fifth decade of crime fighting. In this memoir, Jim Ingram provides insider information on the above high-profile cases and others, along with a personal perspective on his nearly 30-year career of law enforcement. During that career, he headed up the FBI offices in New York and Chicago, and was in charge of the violent crimes civil rights desk in Mississippi in the 1960s, and served in the 1970s as deputy assistant FBI director in Washington, DC. In the later years of his career, he became the FBI's top expert on terrorism. This book discloses, for the first time, how he secretly trained U.S. Army and U.S. Air Force personnel on terrorism. After his retirement from the FBI, Ingram served as Public Safety Commissioner for the State of Mississippi, which put him in charge of the Highway Patrol. had been heavily infiltrated by the KKK while he was head of the civil rights desk in Mississippi.

Appointed by Governor Kirk Fordice, a conservative Republican with a penchant for abrasiveness, Ingram became good friends with the man despite their political differences. Ingram's memories of the governor's tempestuous marital conflicts add spice to a book that revolves around the major crimes of the past century.

Message From FBI Director James B. Comey: This past year, the FBI and its partners again addressed a wide range of national security and criminal threats. Together, we responded to numerous crisis incidents, such as the terrorist bombings of the Boston Marathon and the shootings at the Navy Yard in Washington, DC. We confronted a continued surge of cyber attacks against targets ranging from everyday citizens to our largest and most successful businesses. And we stopped those who would strike at the heart of our communities—from violent gangs and white-collar criminals to child predators and corrupt public officials. A glimpse of the challenges we faced—and what we achieved together—can be found in this latest edition of *The FBI Story*, our annual collection of news and

feature articles from the Bureau's public website. Here you can read about some of our most successful recent major investigations and operations. These include a three-day nationwide sweep targeting child prostitution in which we identified and rescued more than 100 young victims and arrested more than 150 pimps; the rescue of a 5-year-old boy held captive in a heavily armed bunker in Alabama; and uncovering of the largest domestic bribery and bid-rigging scheme in the history of federal contracting cases—one that siphoned more than \$30 million dollars of taxpayer money. This edition of *The FBI Story* also highlights some of the Bureau's remarkable capabilities. You will find a multi-part series on our elite Hostage Rescue Team—which marked its 30th anniversary this past year—and a feature on the Terrorist Explosive Device Analytical Center (TEDAC)—an FBI-established, multi-agency operation that celebrated its 10th anniversary in 2013. The legendary FBI criminal profiler and international bestselling author of *Mindhunter* and *The Killer Across the Table* returns with this timely, relevant book that goes to the heart of extremism and

domestic terrorism, examining in-depth his chilling pursuit of, and eventual prison confrontation with Joseph Paul Franklin, a White Nationalist serial killer and one of the most disturbing psychopaths he has ever encountered. Worshippers stream out of an Midwestern synagogue after sabbath services, unaware that only a hundred yards away, an expert marksman and avowed racist, antisemite and member of the Ku Klux Klan, patiently awaits, his hunting rifle at the ready. The October 8, 1977 shooting was a forerunner to the tragedies and divisiveness that plague us today. John Douglas, the FBI's pioneering, first full-time criminal profiler, hunted the shooter—a white supremacist named Joseph Paul Franklin, whose Nazi-inspired beliefs propelled a three-year reign of terror across the United States, targeting African Americans, Jews, and interracial couples. In addition, Franklin bombed the home of Jewish leader Morris Amity, shot and paralyzed *Hustler* magazine publisher Larry Flynt, and seriously wounded civil rights leader Vernon Jordan. The fugitive supported his murderous spree robbing banks in five states, from

Georgia to Ohio. Douglas and his writing partner Mark Olshaker return to this disturbing case that reached the highest levels of the Bureau, which was fearful Franklin would become a presidential assassin--and haunted him for years to come as the threat of copycat domestic terrorist killers increasingly became a reality. Detailing the dogged pursuit

of Franklin that employed profiling, psychology and meticulous detective work, Douglas and Olshaker relate how the case was a make-or-break test for the still-experimental behavioral science unit and revealed a new type of, determined, mission-driven serial killer whose only motivation was hate. A riveting, cautionary tale

rooted in history that continues to echo today, *The Killer's Shadow* is a terrifying and essential exploration of the criminal personality in the vile grip of extremism and what happens when rage-filled speech evolves into deadly action and hatred of the "other" is allowed full reign. *The Killer's Shadow* includes an 8-page color photo insert.
