Valence Confluence Book 4

I was enjoying book 4 but had to go back and re read book 3 before continuing on page 323 A lot of new technology and biology is both intriguing and plausibly feasible, related as part of the multiple sub plots, all related to saving earth, that, to me, was fascinating. I do look forward to more adventures from these characters.

Confluence Series by Jennifer Foehner Wells

Valence (Confluence Book. 4) The final book of the series, and the best. The best of the series, with one exception, the ending. Good writing skills and excitement. Th kept me on edge, without exposing the final ending. I would have preferred more information at the end.

I am rebranding The Druid Gene as INHERITANCE and making it Confluence Book 3. Therefore, VALENCE is moved to slot #4. I asked Galen Dara to rework the Druid Gene's cover so that it would fit well with the other books in the series to get it ready for a relaunch. I couldn't be happier. It's beautiful. There are two more books to come in this ...

NASA discovered the alien ship lurking in the asteroid belt in the 1960's. They kept the Target under intense surveillance for decades, letting the public believe they were exploring the solar system, while they worked feverishly to refine the technology needed to reach it. Dr. Jane Holloway is content documenting nearly-extinct languages and had never contemplated becoming an astronaut.

Valence (Confluence, #4) by Jennifer Foehner Wells

Valence (Confluence Book 4) ... i really liked the entire series but I think that Valence is the best books so far. Another reviewer described the book as satisfying and I completely agree, That was my first word to describe the book when I

finished. Totally satisfying. The plot development and characters were well developed.

Confluence Series by Jennifer Foehner Wells

I'm not the kind of person who will rate a book badly if I hate a character, find it too gory, or didn't like the ending. My sensibilities are not easily offended, and I understand not every book is for every person. However, I do rate books badly

when they don't work. Fluency is a fine example of a book that does not work, for a number of reasons.
