Wake Up Missing Hardcover – September 10, 2013 by Kate Messner (Author)

Children's Book Review: Wake Up Missing by Kate Messner ...

Wake Up Missing: Kate Messner: 9780802737489: Amazon.com ...

Kate Messner is passionately curious and writes books that encourage kids to wonder, too. Her titles include award-winning picture books like *Over and Under the Pond*, *Up in the Garden and Down in the Dirt*, *Over and Under the Pond*, *The Brilliant Deep*, and *How to Read a Story*; novels that tackle real-world issues like *Breakout*, *All the Answers*, and *The Seventh Wish*; mysteries and thrillers like ...

Wake Up Missing by Kate Messner is an excellent thriller. The story starts when Cat is seeking medical attention for a concussion whose effects have been haunting her life for months. She convinces her parents to send her to a summer camp of sorts, where two Doctors, Dr. Ames and Gunther, have facilities specially designed to treat patients with brain injuries.

I enjoyed the ideas Kate Messner played with throughout WAKE UP MISSING, such as the genetic engineering. Her writing style was pleasant but the story plot seemed far to fast for reality. The main characters, Cat, Sarah, Quentin, and Ben were intriguing but the friendship that grows between them was also quickly developed.

IF YOU HIT YOUR HEAD hard enough, your brain gets shaken

Wake Up Missing - Kindle edition by Kate Messner. Download it once and read it on your Kindle device, PC, phones or tablets. Use features like bookmarks, note taking and highlighting while reading Wake Up Missing.

Wake Up Missing: Kate Messner: Amazon.com: Books

The topics of gene therapy and bioethics provide the reader with food for thought long after the book ends., A compelling mystery full of paranoia and suspenseful twists and turns with villains as menacing as Everglade alligators., From mad scientists to one-eyed alligators, the adventures in Wake Up Missing had me on the edge of my seat - I couldn't turn the pages fast enough!, Kate Messner combines a fascinating concept with page-turning suspense. . . .

“Kate Messner’s new novel, *Wake Up Missing*, has all the qualities you want in a thriller: deceit, science taken to the extreme, and characters that you root for – especially when it looks like there is no hope. Messner has taken two very prominent issues ripped from the headlines, and combined them into a fast paced cranial feast as she explores concussions and gene therapy.”

IF YOU HIT YOUR HEAD hard enough, your brain gets shaken

Wake Up Missing > Customer reviews ... I've never read anything by Kate Messner before, but I'll definitely be looking for more!! I would recommend this to kids ages 12-15 but no younger because a couple people die and they might think it's scary (there aren't many details though). I'm 13 and I wasn't really scared.
