~~What Happens To Leaves In~~  
~~What Happens to Fallen Leaves? | Fall Foliage~~

This happens because the temperature of the air and soil starts to warm up and the hours of daylight increase as the days get longer with the coming of spring. Plants need light to make food to grow and reproduce. Some trees produce blossom or catkins before their leaves appear. Other trees grow new leaves first.

~~Learn All About Leaves—Science Lesson & Projects | HST~~

An explanation of how leaves work as a plant's food factory, converting sunlight into food for the plant in a process called photosynthesis. We see the result of an experiment in which the leaves...

~~Why do plants have leaves?—KS2 Science—BBC Bitesize~~

While evergreen plants in cold climates have thick waxes and resins to protect their leaves from freezing and fracturing, deciduous species generally have thin leaves that are susceptible to cold temperatures. Since water expands when frozen, the tender leaf cells would rupture during the winter, making them useless for photosynthesis.

~~What happens to all of the dead leaves?~~

Longtime fans of Kiss FM's Fred and Angi morning show have noticed their morning hosts have gone from two to one. In mid-September, Angi Taylor of the morning show duo revealed she would be leaving the station and would no longer be a host on Fred and Angi. This leaves host Christopher "Fred" Frederick to host the show alone. But viewers are still wondering, what happened to Angi?

What happens if you don't leave a will? If you don't have a will when you die, your money, property and possessions will be shared out according to the law instead of your wishes. This can mean they pass to someone you hadn't intended - or that someone you want to pass things on to ends up with nothing.

The risk of an electoral meltdown is ordinarily rather small, but this November promises a combination of stressors that could lead to epic failure and chaos

~~What if Trump loses but refuses to leave office? Here's ...~~

Contact your nearest Citizens Advice for help assigning your tenancy, or if you aren't sure whether it's allowed.. If you have a rolling tenancy. If you're joint tenants and you both want to leave, either you or your ex-partner can end the tenancy by giving notice. You'll both need to move out.

~~What happens to your home when you separate—Citizens Advice~~

What happens if you don't leave a will? If you don't have a will when you die, your money, property and possessions will be shared out according to the law instead of your wishes. This can mean they pass to someone you hadn't intended - or that someone you want to pass things on to ends up with nothing.

~~What happens if you don't leave a will?—Money Advice Service~~

This happens because the temperature of the air and soil starts to warm up and the hours of daylight increase as the days get longer with the coming of spring. Plants need light to make food to grow and reproduce. Some trees produce blossom or catkins before their leaves appear. Other trees grow new leaves first.

~~What happens to trees in Springtime?~~

Fallen leaves are recycled. After a leaf has reached the ground, it begins to break down (with the help of animals,

bacteria, and fungi), creating a layer of decaying organic material at the base of the tree. The leaf matter is converted back into simple carbon dioxide and water. This is just one of the fundamental parts of the carbon cycle.

#### ~~What Happens to Fallen Leaves? | Fall Foliage~~

What happens to your pension when you die? The way you take your pension will affect how you can leave it to your beneficiary (the person who inherits it) when you die. Most pension options allow anyone to inherit your pension - they don't have to be your spouse or civil partner.
