Whats The Future Of Business

In future business will feature more technology. The meteoric rise of companies like Uber, Airbnb and Deliveroo rattled the world of

business. Some of the biggest players in transport, lettings and delivery industries suddenly weren't actually in transport, letting and delivery - they were technology companies.

Collaboration will help shape our shared future. Data tells us that last year was probably the best in humanity's history. A smaller share of the global population was hungry, impoverished or illiterate than at any other time. Every day, the number of people living in extreme poverty falls by 217,000.

Welcome to the fourth installment in our blog series taking a look at the future of some the occupational fields you'll find here at South University Online Programs. Today, we're going to be looking at some trends and career outlooks in Business. When you pursue a career in business, there are a wide range of areas that you could focus on.

What's the Future of Business is a book that you can read in less than a couple of hours, but will be sufficiently thought provoking that you could spend the same amount of time on just one of its concepts. Buy it if you want a guide to staying ahead of the curve in today's rapidly changing world.

The future is already here and if you intend to be part of the relevant class of the society in the days to come, then you should invest in any of this business above. You should also know that most of this business is in the field of science and technology which need loads of research years before the products can be commercially viable, so the time to start is now, not later.

The End of Business as Usual almost seems to pick up from there and examines changing consumer habits and how we all need to modify our business practices accordingly. This new book What's

the Future of Business? builds on your previous work and explores the customer experience. How did your earlier work influence this book?

As Joe Pine and Jim Gilmore wrote in the Experience Economy: Work Is Theater & Every Business a Stage, the future of business is less about products and more about creating experiences. That's right. You're no longer in the product business. Products are a by-product of experiences you set out to create.
