knowledge work and of the fact that the potential can be realized only if they understand more about how knowledge is actually developed and shared. Our primary aim in this book is to develop a preliminary understanding of what knowledge is within organizations.

### **cover - repository.umpwr.ac.id:8080**

What we offer is a working definition of knowledge, a pragmatic description that helps us communicate what we mean when we talk about knowledge in organizations. Our definition expresses the characteristics that make knowledge valuable and the characteristics -- often the same ones -- that make it difficult to manage well:
