This book, first published in 2000, offers a wide-ranging and ambitious analysis of how European travellers in India developed their perceptions of ethnic, political and religious diversity over three hundred years. It analyses the growth of novel historical and philosophical concerns, from the early and rare examples of medieval travellers such as Marco Polo, through to the more sophisticated narratives of seventeenth-century observers - religious writers such as Jesuit missionaries, or independent antiquarians such as Pietro della Valle. The book's approach combines the detailed contextual analysis of individual narratives with an original long-term interpretation of the role of cross-cultural encounters in the European Renaissance. An extremely wide range of European sources is discussed, including the often neglected but extremely important Iberian and Italian sources. However, the book also discusses a number of non-European sources, Muslim and Hindu, thereby challenging simplistic interpretations of western 'orientalism'.

In Blood Relations' Janet Adelman confronts her resistance to The Merchant of Venice as both a critic and a Jew. With her distinctive psychological acumen' she argues that Shakespeares play frames the uneasy relationship between Christian and Jew specifically in

familial terms in order to recapitulate the vexed familial relationship between Christianity and Judaism. Adelman locates the promise - threat - of Jewish conversion as a particular site of tension in the play. Drawing on a variety of cultural materials' she demonstrates that' despite the triumph of its Christians' The Merchant of Venice reflects Christian anxiety and guilt about its simultaneous dependence on and disavowal of Judaism. In this startling psycho - theological analysis' both the insistence that Shylocks daughter Jessica remain racially bound to her father after her conversion and the depiction of Shylock as a bloody - minded monster are understood as antidotes to Christian uneasiness about a Judaism it can neither own nor disown. In taking seriously the religious discourse of The Merchant of Venice' Adelman offers in Blood Relations an indispensable book on the play and on the fascinating question of Jews and Judaism in Renaissance England and beyond.

A provocative contribution to the history of early modern Euro-Asian interactions that provides new perspectives on the encounter between Catholicism and Hinduism in India

In *The Dragoman Renaissance*, E. Natalie Rothman traces how Istanbul-based diplomatic translator-interpreters, known as the dragomans, systematically engaged Ottoman elites in the study of the Ottoman Empire—eventually coalescing in the discipline of Orientalism—throughout the sixteenth and seventeenth centuries. Rothman challenges Eurocentric assumptions still pervasive in Renaissance studies by showing the centrality of Ottoman imperial culture to the articulation of European knowledge about the Ottomans. To do so, she draws on a dazzling array of new material from a variety of archives. By studying the sustained interactions between dragomans and Ottoman courtiers in this period, Rothman disrupts common ideas about a singular moment of "cultural encounter," as well as about a "docile" and "static" Orient, simply acted upon by extraneous imperial powers. *The Dragoman Renaissance* creatively uncovers how dragomans mediated Ottoman ethno-linguistic, political, and religious categories to European diplomats and scholars. Further, it shows how dragomans did not simply circulate fixed knowledge. Rather, their engagement of Ottoman imperial modes of inquiry and social reproduction shaped the discipline of Orientalism for centuries to come. Thanks to generous funding from the Andrew W. Positing a dynamic relationship between print culture and social experience, Bronwen Wilson's *The World in Venice* focuses on the printed image during a century of profound transformation. City views, costume illustrations, events, and portraits of locals and foreigners are brought together to show how printmakers responded

to an expanding image of the world in Renaissance Venice, and how, in turn, prints influenced the ways in which individuals thought about themselves. Woodcuts and engravings of cities and inhabitants of Europe, and those of distant lands, initiated a sudden and pervasive experience with alterity that redefined the relations of Europeans to the world. By condensing the world into pictures, print enabled a radically novel and vicarious experience of others. Wilson explores the overlapping and evolving relations between space, vision, print, and identity, and engages with current scholarly debates concerning ethnicities, gender and geography, copies and originals, travel, nationhood, fashion, urban life, visuality, and the body. Venice was one of the largest cities in Renaissance Europe, a trading crossroads, and a centre of print. *The World in Venice* shows how Venetian identity came to be envisioned within the growing global context that print constructed for it.

The year 1543 marked the beginning of a new global consciousness in Japan with the arrival of shipwrecked Portuguese merchants on Tanegashima Island in southern Japan. Other Portuguese soon followed and Japan became aware of a world beyond India. After the merchants came the first missionary Francis Xavier in 1549, beginning the Christian century in Japan. This is not a new story, but it is the first time that Japanese, Portuguese and other European accounts have been brought together and presented in English. Their arrival was recorded by the Japanese in Tanegashima kafu, the Teppoki and the Kunitomo teppoki, here translated and presented together with European reports. Includes maps, and Portuguese and Japanese illustrations.

2011 Reprint of 1961 Edition. Many social scientists have attempted to lump the unique Inca society into modern political and economic categories. Louis Baudin argued that Inca society was socialistic. He claimed that the ayllu system is what classified the Inca as a system of state socialism. Baudin defines state socialism as being based on the idea of the regulative action of a central power in social relations. According to Baudin, the idea of private property in Europe had been in existence for centuries, but no such idea existed at the times of the Incas. He claims, that society in Peru rested on a foundation of collective ownership which, to a certain extent, facilitated its establishment, because the effacement of the individual within a group prepared him to allow himself to be absorbed. Baudin argued that the higher ranking Incas tried, and succeeded to an extent, to force a degree of uniformity on the common Inca. The Inca were forced to dress similarly, eat the same food, practice the same religion, and speak the same language, Quechua.

The Merchant of Venice of the Ratna Sagar Shakespeare Series is enriched with text based on the A W Verity edition, line-by-line translation of text into modern English, plenty of short notes that explain and interpret the text, summary of each scene, as well as useful commentary on the life and times of Shakespeare, Elizabethan theatre, literary sources, characters, figures of speech, and artwork that brings to life significant episodes in the story. This enriched edition of The Merchant of Venice has exhaustive an-

notations and notes. Set in Venice and Belmont, the play deals with the themes of friendship, mercy, trust, money, and prejudice. It depicts many aspects of the society of the times - social classes and segregation, and trading and commerce. The play opens with Antonio, the merchant of Venice, troubled about his ships at sea. As Bassanio enters the scene, the audience gets a clear picture of the affection that Antonio holds for him. Bassanio pours out his heart to Antonio about his desire to marry the beautiful and rich heiress Portia in Belmont. It is revealed that Bassanio is an extravagant youth, who has spent most of his inheritance, and wishes to marry Portia partly out of love, and partly to repair his fortunes. It is usual for Bassanio to ask Antonio for financial aid, and he does so now again. But Antonio's 'fortunes are at sea', and he asks Bassanio to take credit in his name from whoever is willing to lend in Venice. This leads Antonio to enter into a hazardous bond with the hard-hearted Jew Shylock. In Belmont, Portia is overwhelmed by a constant line of suitors, who come to undertake her late father's challenge and win her hand - they are required to choose from three caskets of gold, silver, and lead the one containing Portia's portrait. As every suitor fails due to his vanity or overconfidence, Bassanio arrives much to Portia's delight, for she has favoured him since the time of his first visit to Belmont. As Bassanio successfully passes the test of the caskets, his friend Gratiano expresses his desire to marry Nerissa, Portia's gentlewoman. As both couples rejoice in the union, news arrives from Venice that Antonio has failed to repay the debt in time, and is in danger of losing a pound of flesh, the penalty in his contract with Shylock. Bassanio immediately leaves for Venice with Gratiano, and so does Portia with Nerissa, but without anyone's knowledge. At the crucial trial of Antonio, Portia and Nerissa arrive at the court disguised as a young lawyer and a clerk. As Shylock remains stubborn on claiming his bond, Portia cleverly turns the tables on him, which not only saves Antonio's life but also compels Shylock to forfeit his loan and bequeath his property to his daughter and son-in-law. All characters return to Belmont, where Portia informs Antonio that his ships have been salvaged and have come to harbour. Like a typical Shakespearean comedy, the play ends on the happy note of all's well that ends well. The play has rich characterization. Portia is memorable as a gutsy heroine who resolves the conflict in the play. She stresses mercy as a divine quality as against the call for revenge by Shylock. Shylock, on the other

hand, though portrayed as the antagonist of the play, is representative of those who are victims of the evils of prejudice and betrayal. Being a Jew, he is spited by Antonio and the others, which fuels his craving for revenge. Both characters have some of the most memorable speeches in the play that establish the common humanity of all races and cultures.
