You Are WHY You Eat Quotes by Ramani Durvasula

The diet that helps fight climate change

Eat breakfasts high in protein, fat, and veggies, and low in carbs. While it may be tempting to eat sugary foods for breakfast, chocolate croissants, cereals, and doughnuts can cause your blood sugar levels to rise significantly, resulting later in a crash that will only make you crave sugar more.

29 Small Ways To Change Your Eating Habits Big Time

Healthy Eating: Changing Your Eating Habits

You Are What You Eat It is indeed true that the quality of food that you take in will do a great deal to determine the quality of life that goes on in each cell of your body. Food has a huge effect on your health, and a diet rich in any one aspect would be an unhealthy diet, in the same way that a diet lacking in a certain nutrient would also affect your health.

These are key signs that you need a major life change. Whether you've been feeling like this for a few months or a couple of years, no one should be living their life just to get through the day.
